EXECUTIVE ORDERS

RELATING TO THE

ISTHMIAN CANAL COMMISSION.

WHITE HOUSE,
Washington, March 8, 1904.

SIRS: I have appointed you as the Commission which is to undertake the most important and also the most formidable engineering feat that has hitherto been attempted. You are to do a work the doing of which, if well done, will reflect high honor upon this nation, and, when done, will be of incalculable benefit, not only to this nation, but to civilized mankind. As you yourselves must individually know, I have chosen you with reference to nothing save my belief, after full and patient inquiry, that you are among all the available men of whom I have knowledge, those best fitted to bring this great task to a successful conclusion. You have been chosen purely because of your personal and professional reputations for integrity and ability. You represent the whole country. You represent neither section nor party. I have not sought to find out the politics of a single one of you, and, indeed, as to the majority of you I have not the slightest idea what your political affiliations are.

I believe that each one of you will serve not merely with entire fidelity, but with the utmost efficiency. If at any time I feel that any one of you is not rendering the best service which it is possible to procure, I shall feel called upon to disregard alike my feelings for the man and the man's own feelings, and forthwith to substitute for him on the Commission some other man whom I deem capable of rendering better service. Moreover, I shall expect, if at any time any one of you feels that the work is too exhausting and engrossing for him to do in the best possible manner, that he will of his own accord so inform me, in order that I may replace him by some man who, to the requisite ability, joins the will and the strength to give all the effort needed. But so long as you render efficient service of the highest type in the work you are appointed to perform, you may rest assured of my hearty support and backing in every way.

These are the conditions under which you have been appointed, and under which I shall expect you to proceed. I shall furthermore expect you to apply precisely the same principles in the choice and retention of the subordinates who do the work under you as I have

applied in your choice and shall apply in your retention. I shall expect you to appoint no man for reasons other than your belief in the aid he can render you in digging the canal. If, having appointed any man, you find that your expectations about him are not fulfilled, or that from any reason he falls short of his duty, I shall expect you to dismiss him out of hand; I shall expect that under such circumstances you will pay not the slightest heed to any backing or influence the man may have. I assume as a matter of course that in dealing with contractors you will act on precisely the principles which would apply in any great private business undertaking. There is no man among you to whom I think it is necessary to say a word as to the standard of honesty to be exacted from every employe or contractor, for if I had had the slightest ground for suspicion that there was need to say such a word to any one of you I should not have appointed him. But I do wish to emphasize the need of unceasing vigilance in the performance of this great work.

As to the details of the work itself I have but little to say. It is to be done as expeditiously as possible, and as economically as is consistent with thoroughness. There is one matter to which I wish to ask your special attention—the question of sanitation and hygiene. You will take measures to secure the best medical experts for this purpose whom you can obtain, and you will, of course, make the contractors submit as implicitly as your own employes to all the rules and regulations of the medical department under you. I presume you will find it best to have one head for this medical department, but that I shall leave to your own judgment.

The plans are to be carefully made with a view to the needs not only of the moment, but of the future. The expenditures are to be supervised as rigorously as if they were being made for a private corporation dependent for its profits upon the returns. You are to secure the best talent this country can afford to meet the conditions created by every need which may arise. The methods for achieving the results must be yours. What this nation will insist upon is that the results be achieved.

THEODORE ROOSEVELT.

THE ISTHMIAN CANAL COMMISSION.

The compensation of the members of the Isthmian Canal Commission shall be as follows, until otherwise determined by Congress:

The salary of each commissioner shall be at the rate of twelve thousand dollars a year, payable one thousand dollars per month, commencing upon the day on which he takes the oath of office.

An additional allowance of fifteen dollars per day is to be paid to each member of the Commission while absent from the United States on duty.

Each member of the Commission shall be allowed expenses while traveling on duty as follows: transportation, including seat in day Pullman car, or section in sleeping car; a reasonable allowance for baggage, portorage, hacks and street cars; and hotel expenses not exceeding seven dollars per day.

The members of the Commission shall be considered as on duty when in Washington. Any travel for private purposes, or visiting their homes, shall not be considered as traveling on duty.

The approval of the Chairman or acting Chairman of the Commission shall be required on all vouchers.

WHITE HOUSE,

Washington, D. C., May 9, 1904.

SIR: By the act of Congress approved June 28, 1902, the President of the United States is authorized to acquire for, and on behalf of, the United States all the rights, privileges, franchises, concessions, grants of lands, rights of way, unfinished work, plants, shares of the capital stock of the Panama Railway, owned by or held for the use of the new Panama Canal Company, and any other property, real, personal, and mixed of any name or nature owned by the said new Panama Canal Company situated on the Isthmus of Panama. The President is by the same act also authorized to acquire for, and on behalf of, the United States perpetual control of a strip of land on the Isthmus of Panama, not less than six miles in width, extending from the Caribbean Sea to the Pacific Ocean, and the right to excavate, construct, and maintain perpetually, operate and protect thereon, a ship canal of certain specified capacity and also the right to perpetually operate the Panama Railroad. Having acquired such rights, franchises, property, and control, the President is by the same act required to excavate, construct, and complete a ship canal from the Caribbean Sea to the Pacific Ocean, and to enable him to carry forward and complete this work, he is authorized to appoint, by and with the consent of the Senate, an Isthmian Canal Commission of seven members, who are to be in all matters subject to his direction and control.

By the terms of the Canal Convention between the United States and the Republic of Panama, entered into in pursuance of the said act of Congress approved June 28, 1902, the ratifications of which were exchanged on the 26th day of February, 1904, the Republic of Panama granted to the United States:

First, the perpetual use, occupation, and control of a certain zone of land, land under water including islands within said zone, at the Isthmus of Panama, all to be utilized in the construction, maintenance, and operation, sanitation and protection of the ship canal, of the width of ten miles extending to the distance of five miles on each side of the central line of the route of the canal, and the use, occupation, and control of other lands and waters outside

of the zone above described which may be necessary and convenient for the construction, maintenance, operation, sanitation, and protection of said canal or of any auxiliary canals or other works necessary and convenient for the same purpose; also the islands of Perico, Naos, Culebra, and Flamenico, situated in the Bay of Panama, and

Second, all the rights, powers, and authority within the zone, auxiliary lands and lands under water, which the United States would possess and exercise if it were the sovereign of the territory granted, to the entire exclusion of the exercise by the Republic of Panama of any such sovereign rights, power, and authority.

By the act of Congress approved April 28, 1904, the President is authorized, upon acquisition of the property of the new Panama Canal Company, and the payment to the Republic of Panama of the price for compensation agreed upon in the said Canal Convention, to take possession of, and occupy on behalf of the United States, the zone of land, and land under water, including islands within said zone at the Isthmus of Panama of the width of ten miles extending to the distance of five miles on each side of the central line of the route of the canal to be constructed thereon, including the islands of Perico, Naos, Culebra, and Flamenico, and from time to time as may be necessary and convenient certain auxiliary lands and waters outside the said zone for the purpose of constructing, maintaining, operating, sanitating, and protecting the ship canal, the use, occupation, and control whereof were granted to the United States by the Republic of Panama in the said Canal Convention.

By the same act, the President is authorized, for the purpose of providing temporarily for the maintenance of order in the canal zone and for maintaining and protecting the inhabitants thereof in the free enjoyment of their liberty, property, and religion, to delegate to such person or persons as he may designate and to control the manner of their exercise, all the military, civil and judicial powers as well as the power to make all needful rules and regulations for the government of the canal zone and all the rights, powers and authority granted by the said Canal Convention to the United States, until the close of the Fifty-eighth Congress.

Payments of the authorized purchase price of \$40,000,000 to the new Panama Canal Company for the property of that corporation on the isthmus, including the shares of railway stock, and for the records in Paris, and of the sum of \$10,000,000, as stipulated in the Canal Convention, to the Republic of Panama for the rights, powers and privileges granted to the United States by the terms of the said convention, have been made and proper instruments of transfer have been executed by the Panama Canal Company. The members of the Isthmian Canal Commission have been appointed. They have organized the commission and entered upon their duties. I have taken

possession of and now occupy, on behalf of the United States, the canal zone and public land ceded by the Republic of Panama.

It becomes my duty, under the statutes above referred to, to secure the active prosecution of the work of construction of the canal and its auxiliary works, through the Isthmian Canal Commission, and in connection with such work and in aid thereof to organize and conduct a temporary government of the zone, so as to maintain and protect the inhabitants thereof in the free enjoyment of their liberty, property, and religion.

Inasmuch as it is impracticable for the President, with his other public duties, to give to the work of supervising the commission's construction of the canal and government of the zone the personal attention which seems proper and necessary, and inasmuch as the War Department is the department which has always supervised the construction of the great civil works for improving the rivers and harbors of the country and the extended military works of public defense, and as the said department has from time to time been charged with the supervision of the government of all the island possessions of the United States, and continues to supervise the government of the Philippine Islands, I direct that all the work of the commission done by virtue of powers vested in me by the act of Congress approved June 28, 1902, in the digging, construction, and completion of the canal, and all the governmental power in and over said canal zone and its appurtenant territory, which by virtue of the act of Congress approved April 28, 1904, and these instructions, shall be vested in said Isthmian Canal Commission, shall be carried on or exercised under your supervision and direction as Secretary of War.

Subject to the limitations of law and the conditions herein contained, the Isthmian Canal Commission are authorized and directed:

1. To make all needful rules and regulations for the government of the zone and for the correct administration of the military, civil, and judicial affairs of its possessions until the close of the Fifty-eighth Congress.

2. To establish a civil service for the government of the strip and construction of the canal, appointments to which shall be secured as nearly as practicable by a merit system.

3. To make or cause to be made all needful surveys, borings, designs, plans, and specifications of the engineering, hydraulic, and sanitary works required and to supervise the execution of the same.

4. To make and cause to be executed after due advertisement all necessary contracts for any and all kinds of engineering and construction works.

5. To acquire by purchase or through proper and uniform expropriation proceedings, to be prescribed by the commission, any

private lands or other real property whose ownership by the United States is essential to the excavation and completion of the canal.

6. To make all needful rules and regulations respecting an economical and correct disbursement and an accounting for all funds that may be appropriated by Congress for the construction of the canal, its auxiliary works, and the government of the canal zone; and also to establish a proper and comprehensive system of bookkeeping, showing the state of the work, the expenditures by classes, and the amounts still available.

7. To make requisition on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

The inhabitants of the Isthmian Canal Zone are entitled to security in their persons, property, and religion, and in all their private rights and relations. They should be so informed by public announcement. The people should be disturbed as little as possible in their customs and avocations that are in harmony with principles of well ordered and decent living.

The municipal laws of the canal zone are to be administered by the ordinary tribunals substantially as they were before the change. Police magistrates and justices of the peace and other officers discharging duties usually devolving upon these officers of the law will be continued in office if they are suitable persons. The governor of the zone, subject to approval of the commission, is authorized to appoint temporarily a judge for the canal zone, who shall have the authority equivalent to that usually exercised in Latin countries by a judge of a court of first instance, but the Isthmian Canal Commission shall fix his salary and may legislate respecting his powers and authority, increasing or diminishing them in their discretion, and also making provision for additional or appellate judges, should the public interest require.

The laws of the land, with which the inhabitants are familiar, and which were in force on February 26, 1904, will continue in force in the canal zone and in other places on the isthmus over which the United States has jurisdiction until altered or annulled by the said commission, but there are certain great principles of government which have been made the basis of an existence as a nation which we deem essential to the rule of law and the maintenance of order, and which shall have force in said zone. The principles referred to may be generally stated as follows:

That no person shall be deprived of life, liberty, or property without due process of law; that private property shall not be taken for public use without just compensation; that in all criminal prosecutions the accused shall enjoy the right of a speedy and public trial, to

be informed of the nature and cause of the accusation, to be confronted with the witnesses against him, to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense; that excessive bail shall not be required nor excessive fines imposed, nor cruel or unusual punishment inflicted; that no person shall be put twice in jeopardy for the same offense, or be compelled in any criminal case to be a witness against himself; that the right to be secure against unreasonable searches and seizures shall not be violated; that neither slavery nor involuntary servitude shall exist except as a punishment for crime; that no bill of attainder or ex post facto law shall be passed; that no law shall be passed abridging the freedom of speech or of the press, or of the rights of the people to peaceably assemble and petition the government for a redress of grievances; that no law shall be made respecting the establishment of religion or prohibiting the free exercise thereof: *Provided, however,* that the commission shall have power to exclude from time to time from the canal zone and other places on the isthmus, over which the United States has jurisdiction, persons of the following classes who were not actually domiciled within the zone on the 26th day of February, 1904, viz: Idiots, the insane, epileptics, paupers, criminals, professional beggars, persons afflicted with loathsome or dangerous contagious diseases; those who have been convicted of felony, anarchists, those whose purpose it is to incite insurrection and others whose presence it is believed by the commission would tend to create public disorder, endanger the public health, or in any manner impede the prosecution of the work of opening the canal; and may cause any and all such newly-arrived persons or those alien to the zone to be expelled and deported from the territory controlled by the United States, and the commission may defray from the canal appropriation the cost of such deportation as necessary expenses of the sanitation, the police protection of the canal route, and the preservation of good order among the inhabitants.

The commission may legislate on all rightful subjects of legislation not inconsistent with the laws and treaties of the United States so far as they apply to said zone and other places, and the said power shall include the enactment of the sanitary ordinances of a preventive or curative character to be enforced in the cities of Colon and Panama and which are contemplated and authorized by Article 7 of said Canal Convention. Such legislative power shall also include the power to raise and appropriate revenues in said zone; and all taxes, judicial fines, customs duties and other revenues levied and collected in said zone by or under the authority of said commission shall be retained, accounted for, and disbursed by said commission for its proper purposes. The members of said commission to the number of four or more shall constitute a legislative quorum, and all rules and regula-

tions passed and enacted by said commission shall have set forth as a caption that they are enacted by the Isthmian Canal Commission "By authority of the President of the United States."

The commission shall hold its regularly quarterly meetings at the office of the commission either in Panama or at a branch office in Washington, and special meetings may be held at the pleasure of the commission.

All laws, rules, and regulations of a governmental character enacted by the commission hereunder shall be submitted to you for your approval, and should your approval be withheld from any such law, rule, or regulation, then from that time the law, rule, or regulation shall thereafter have no force or effect.

Major General George W. Davis, U. S. Army (retired), a member of the Canal Commission, is hereby appointed governor of the Isthmian Canal Zone. He will proceed at once to the Isthmus of Panama. He will in my name, as the chief executive in the canal zone, for and on behalf of the United States, see that the laws are faithfully executed and will maintain possession of said territory, including the public lands therein and the property real and movable on the Isthmus of Panama, except that of the Panama Railroad, that has recently been acquired from the Republic of Panama. He is hereby vested with the power to grant reprieves and pardons for offenses against the rules, regulations, and laws in force by virtue of action of the commission or by virtue of the clause hereof continuing in force the laws of Panama. In case of his disability or absence from the canal zone at any time, the Isthmian Canal Commission is empowered to designate the person or persons to act as governor during such absence or disability. Except as herein prescribed the duties of the governor shall be fixed by legislation of the Canal Commission.

For the preservation of order and protecting the property of the United States, within or without said zone as provided by Article 7 of the Canal Convention, an adequate police force shall be maintained. If at any time there shall arise necessity for military or naval assistance the governor shall, if possible, promptly notify you, and in the event of a sudden exigency the governor may call upon any available military or naval force of the United States to render assistance, and the same shall be immediately furnished.

It is a matter of first importance that the most approved and effective methods and measures known to sanitary science be adopted in order that the health conditions on the isthmus may be improved. It is the belief of those who have noted the successful results secured by our Army in Cuba in the obliteration of yellow fever in that island that it is entirely feasible to banish the diseases that have heretofore caused most mortality on the isthmus, or at least to improve as greatly the health conditions there as in Cuba and Porto Rico. I

desire that every possible effort be made to protect our officers and workmen from the dangers of tropical and other diseases, which in the past have been so prevalent and destructive in Panama.

Rear Admiral John G. Walker, U. S. Navy (retired), and Colonel Frank J. Hecker, members of the Isthmian Canal Commission, are hereby designated as members of the joint commission provided for by Articles 6 and 15 of the Canal Convention. The moiety of the necessary expenses of the commission to be created in pursuance of Articles 6 and 15 of the above-cited Canal Convention will be defrayed from the appropriation applicable to the ship canal to connect the waters of the Atlantic and Pacific oceans.

The Isthmian Canal Commission will prepare for Congress and place in your hands on or before December 1 of each year a full and complete report of all their acts and of the operations conducted by them in respect to the canal construction and the government of the canal zone. These reports will contain a detailed account of all moneys received and disbursed in the performance of their duties and of the progress made in the construction of the canal.

The necessary expenses incurred by the commission in carrying on the government of the canal zone will be defrayed from the local revenues so far as the said revenues may be sufficient and the remainder will be met from the appropriation made by the fifth section of the act of Congress approved June 28, 1902. An estimate of the proposed expenditures and revenues for each year in carrying on the government of the zone will be submitted to Congress at the beginning of each annual session.

By virtue of the ownership by the United States of about sixty-nine seventieths of the shares of the capital stock of the Panama Railroad the general policy of the managers of said road will be controlled by the United States. As soon as practicable I desire that all the members of the Isthmian Canal Commission be elected to the board of directors of the road, and that the policy of the road be completely harmonized with the policy of the Government of making it an adjunct to the construction of the canal, at the same time fulfilling the purpose for which it was constructed as a route of commercial movement across the Isthmus of Panama. If any contracts or other obligations now subsist between the railway company and other transportation companies that are not in accord with sound public policy, then such contracts must be terminated as soon as it is possible to effect that object.

No salary or per diem allowance of compensation in addition to the stated salary and per diem allowance of the members of the Isthmian Canal Commission will be allowed to any member of the commission by reason of his services in connection with the civil government of the canal zone, or his membership of any board or

commission concerned in or connected with the construction of the canal or by reason of his services as an officer or director of the Panama Railroad.

If there now be in force within the canal zone any franchise granting to any person or persons a privilege to maintain lotteries or hold lottery drawings or other gambling methods and devices of a character forbidden by the laws of the United States, or if the grantee of any such privilege has now the right to sell lottery tickets or similar devices to facilitate the business of the concessionaire, the commission shall enact laws annulling the privileges or concessions and punishing future exercise of the same by imprisonment or fine, or both.

These instructions may be modified and supplemented as occasion shall arise.

Very respectfully,

THEODORE ROOSEVELT.

Hon. WILLIAM H. TAFT,
Secretary of War.

WAR DEPARTMENT,
Washington, June 24, 1904.

SECTION 3. There is hereby created and shall be maintained in the government of the Canal Zone a subdivision of the executive branch to be known as the Customs Service: the general duties, powers and jurisdiction of the Customs Service shall be to administer the customs laws and tariff regulations in force in said Zone. The Governor of the Canal Zone shall be the head of the Customs Service. There shall be a Collector of Customs for each Collection District, who shall receive an annual salary of two thousand five hundred dollars in gold, payable in monthly installments. It shall be the duty of the Collector to collect all revenues derived from the enforcement of the customs laws and tariff regulations in the District subject to his jurisdiction, and to perform such other service in the administration of such laws as is ordinarily performed by a Collector of Customs or as he may be required to perform by the Governor of the Canal Zone. The Collector of Customs shall be appointed by the Governor, with the advice and consent of the Isthmian Commission. The Governor of the Canal Zone is hereby authorized to appoint and fix the compensation of Deputy Collectors, Surveyors of Customs and such other subordinates and employees as may be necessary for the efficient administration of the Customs laws and Service.

SECTION 4. The Governor of the Canal Zone is hereby authorized and empowered to prescribe and enforce rules and regulations for the

administration of the Customs laws and Service of said Zone, and report the same to the Chairman of the Commission and said rules and regulations shall have the force and effect of law until annulled or modified by legislative act of the Isthmian Canal Commission or other competent authority.

SECTION 5. Until otherwise provided by competent authority, duties on importation into the Canal Zone are to be levied in conformity with such duties as Congress has imposed upon foreign merchandise imported into other ports of the United States.

SECTION 6. Goods or merchandise entering the Canal Zone from ports of the United States or Insular possessions of the United States shall be admitted on the same terms as at the ports of the States of this Union.

SECTION 7. All goods or merchandise, whether free or dutiable, entering the Canal Zone by water, by rail or otherwise, for transportation across said Zone must be entered at the Customs House of the Collection District wherein the point of entrance is situated. Violation of this requirement shall subject the goods to seizure and forfeiture by the Customs officials.

SECTION 8. The Governor of the Canal Zone is authorized to enter and carry out an agreement with the President of the Republic of Panama for co-operation between the Customs Service of the Canal Zone and that of the Republic of Panama to protect the customs revenues of both governments and to prevent frauds and smuggling.

SECTION 9. The Governor of the Canal Zone is hereby authorized to enter upon negotiations and make a tentative agreement with the President of the Republic of Panama respecting reciprocal trade relations between the territory and inhabitants of the Canal Zone and appurtenant territory and the Republic of Panama; also a readjustment of customs duties and tariff regulations so as to secure uniformity of rates and privileges and avoid the disadvantages resulting from different schedules, duties, and administrative measures in limited territory subject to the same conditions and not separated by natural obstacles. The Governor shall report as to such negotiations and proposed agreement to the Chairman of the Isthmian Canal Commission, for submission and consideration by the Commission and such action by competent authority as may be necessary to render said agreement effective in the Canal Zone.

This order will be proclaimed and enforced in the Canal Zone at Panama.

WM. H. TAFT,
Secretary of War.

PANAMA, *December 3, 1904.*

By direction of the President, it is ordered that, subject to the action of the Fifty-eighth Congress as contemplated by the act of Congress, approved April 28, 1904:

SECTION 1. No importation of goods, wares, and merchandise shall be entered at Ancon or Cristobal, the terminal ports of the canal, except such goods, wares, and merchandise as are described in Article XIII of the treaty between the Republic of Panama and the United States, the ratifications of which were exchanged on the 26th day of February, 1904, and except goods, wares, and merchandise in transit across the isthmus for a destination without the limits of said isthmus, and except coal and crude mineral oil for fuel purposes to be sold at Ancon or Cristobal to sea-going vessels; said coal and oil to be admitted to those ports free of duties for said purposes:

Provided, however, That this order shall be inoperative, first, unless the Republic of Panama shall reduce the ad valorem duty on imported articles described in class 2 of the act of the National Convention of Panama passed July 5, 1904, and taking effect October 12, 1904, from fifteen per centum to ten per centum and shall not increase the rates of duty on the imported articles described in the other schedules of said act except on all forms of imported wines, liquors, alcohol, and opium on which the Republic may fix higher rates; second, unless article 38 of the Constitution of the Republic of Panama as modified by article 146 thereof shall remain in full force and unchanged so far as the importation and sale of all kinds of merchandise are concerned; third, unless the consular fees and charges of the Republic of Panama in respect to entry of all vessels and importations into said ports of Panama and Colon shall be reduced to sixty per cent of the rates now in force; and, fourth, unless goods imported into the ports of Panama and Colon consigned to or destined for any part of the Canal Zone shall not be subjected in the Republic of Panama to any other direct or indirect impost or tax whatever.

SEC. 2. In view of the proximity of the port of Ancon to the port of Panama, and the port of Cristobal to the port of Colon, the proper customs or port official of the Canal Zone shall, when not inconsistent with the interests of the United States, at the instance of the proper authority of the Republic of Panama, permit any vessel, entered at or cleared from the ports of Panama and Colon, together with its cargo and passengers, under suitable regulations for the transit of the imported merchandise and passengers to and from the territory of the Republic of Panama, to use and enjoy the dockage and other

facilities of the ports of Ancon and Cristobal respectively upon payment of proper dockage dues to the owners of said docks:

Provided, however, That reciprocal privileges as to dockage and other facilities at Panama and Colon, together with suitable arrangement for transit of imported merchandise and passengers to and from the territory of the Canal Zone, shall be granted by the authorities of the Republic of Panama, when not inconsistent with its interests, to any vessel, together with its cargo and passengers entered at or cleared from the ports of Ancon and Cristobal: *Provided, however,* That nothing herein contained shall affect the complete administrative, police, and judicial jurisdiction of the two governments over their respective ports and harbors, except as hereinafter provided in section 6.

Provided, also, That vessels entering or clearing at the port of Panama shall have the absolute right freely to anchor and lade and discharge their cargoes by lighterage from and to Panama at the usual anchorage in the neighborhood of the islands of Perico, Flamenco, Naos, and Culebra though included in the harbor of Ancon under the provisional delimitation as amended under section 5 hereafter, and to use the said waters of said harbor for all lawful commercial purposes.

SEC. 3. All manifests and invoices and other documents in respect to vessels or cargoes cleared or consigned for or from the ports of Panama and Colon shall, as heretofore, be made by the officials of the Republic of Panama. All manifests, invoices, and other documents in respect to the vessels and cargoes cleared or consigned for or from the ports of Ancon or Cristobal shall be made by officials of the United States.

SEC. 4. No import duties, tolls, or charges of any kind whatsoever shall be imposed by the authorities of the Canal Zone upon goods, wares, and merchandise imported, or upon persons passing from the territory of the Republic of Panama into the Canal Zone, and section 5 of the Executive Order of June 24, 1904, providing that duties on importations into the Canal Zone are to be levied in conformity with such duties as Congress has imposed upon foreign merchandise imported into ports of the United States is hereby revoked, but this order shall be inoperative unless the authorities of the Republic of Panama shall grant by proper order reciprocal free importation of goods, wares, and merchandise and free passage of persons from the territory of the Canal Zone into that of the Republic of Panama.

SEC. 5. The provisions of this order also shall not be operative except upon the condition that the delimitation of the cities and harbors of Colon and Panama, signed on the 15th day of June, 1904, by the proper representatives of the governments of the Republic of Panama and of the Canal Zone, shall be provisionally enforced,

and while the same shall remain in force with the consent of both parties thereto, the provisional delimitation shall include not only the terms set forth in the writing thereof, but also the following, viz.: That the harbor of Panama shall include the maritime waters in front of said city to the south and east thereof, extending three marine miles from mean low-water mark, except the maritime waters lying westerly of a line drawn from a stake or post set on Punta Mala through the middle island of the three islands known as Las Tres Hermanas, and extending three marine miles from mean low-water mark on Punta Mala, which waters shall be considered in the harbor of Ancon.

SEC. 6. This order also shall be inoperative unless the proper governmental authorities of the Republic of Panama shall grant power to the authorities of the Canal Zone to exercise immediate and complete jurisdiction in matters of sanitation and quarantine in the maritime waters of the ports of Panama and Colon.

SEC. 7. The Executive Order of June 24, 1904, concerning the establishment of post-offices and postal service in the Canal Zone is modified and supplemented by the following provisions:

All mail matter carried in the territory of the Canal Zone to or through the Republic of Panama to the United States and to foreign countries shall bear the stamps of the Republic of Panama properly crossed by a printed mark of the Canal Zone Government, and at rates the same as those imposed by the Government of the United States upon its domestic and foreign mail matter, exactly as if the United States and the Republic of Panama for this purpose were common territory. The authorities of the Canal Zone shall purchase from the Republic of Panama such stamps as the authorities of the Canal Zone desire to use in the Canal Zone at forty per centum of their face value; but this order shall be inoperative unless the proper authorities of the Republic of Panama shall by suitable arrangement with the postal authorities of the United States provide for the transportation of mail matter between post-offices on the Isthmus of Panama and post-offices in the United States at the same rates as are now charged for domestic postage in the United States, except all mail matter lawfully franked and inclosed in the so-called penalty envelopes of the United States Government concerning the public business of the United States, which shall be carried free, both by the governments of Panama and of the Canal Zone: *Provided, however,* That the zone authorities may for the purpose of facilitating the transportation of through mail between the zone and the United States in either direction inclose such through mail properly stamped or lawfully franked in sealed mail pouches, which shall not be opened by the authorities of the Republic of Panama in transit,

on condition that the cost of transportation of such mail pouches shall be paid by the Zone Government.

SEC. 8. This order also shall not be operative unless the currency agreement made at Washington June 20, 1904, by the representatives of the Republic of Panama and the Secretary of War of the United States, acting with the approval of the President of the United States, for the establishment of a gold standard of value in the Republic of Panama, and proper coinage shall be approved and put into execution by the President of the Republic of Panama, pursuant to the authority conferred upon him by law of the Republic of Panama, No. 84, approved June 20, 1904, and unless the President of the Republic of Panama, in order that the operation of the said currency agreement in securing and maintaining a gold standard of value in the Republic of Panama may not be obstructed thereby, shall by virtue of his authority conferred by law No. 65, enacted by the National Assembly of Panama on June 6, 1904, abolish the tax of one per cent on gold coin exported from the Republic of Panama.

SEC. 9. Citizens of the Republic of Panama at any time residing in the Canal Zone shall have, so far as concerns the United States, entire freedom of voting at elections held in the Republic of Panama and its provinces or municipalities at such places outside of the Canal Zone as may be fixed by the Republic, and under such conditions as the Republic may determine; but nothing herein is to be construed as intending to limit the power of the Republic to exclude or restrict the right of such citizens to vote as it may be deemed judicious.

SEC. 10. The highway extending from the eastern limits of the city of Panama, as fixed in the above mentioned provisional delimitation agreement of June 10, 1904, to the point still further to the eastward where the road to the "Savannas" crosses the zone line (which is 5 miles to eastward of the center axis of the canal) shall be repaired and maintained in a serviceable condition at the cost and expense of the authorities of the Canal Zone, and also in like manner the said road from the said eastern limits of the city of Panama to the railroad bridge in the city of Panama shall be repaired at the cost of the authorities of the Canal Zone; but this order shall not be operative unless the Republic of Panama shall waive its claim for compensation for the use in perpetuity of the municipal buildings located in the Canal Zone.

SEC. 11. The United States will construct, maintain, and conduct a hospital or hospitals either in the Canal Zone or in the territory of the Republic, at its option, for the treatment of persons insane or afflicted with the disease of leprosy, and indigent sick, and the United States will accept for treatment therein such persons of said classes as the Republic may request; but this order shall not be operative, unless, first, the Republic of Panama shall furnish without cost the

requisite lands for said purposes if the United States shall locate such hospital or hospitals in the territory of the Republic; and, second, unless the Republic shall contribute and pay to the United States a reasonable daily per capita charge in respect of each patient entering, upon the request of the Republic, to be fixed by the Secretary of War of the United States.

SEC. 12. The operation of this Executive Order and its enforcement by officials of the United States on the one hand, or a compliance with and performance of the conditions of its operation by the Republic of Panama and its officials on the other, shall not be taken as a delimitation, definition, restriction, or restrictive construction of the rights of either party under the treaty between the United States and the Republic of Panama.

This order is to take effect on the 12th day of December, 1904.

WM. H. TAFT,

Secretary of War.

PANAMA, *December 6, 1904.*

SECTION 1. Consignments of goods, wares, and merchandise which by virtue of section 1 of the above mentioned order of December 3, 1904, cannot be entered for importation at the ports of Ancon or Cristobal may nevertheless, at the option of the consignor, if accompanied by the proper consular invoices of the consul of the Republic of Panama at the port of consignment, be landed at Ancon or Cristobal, respectively, in transit to any part of the Canal Zone or the republic upon payment of the proper duties to the Republic of Panama, under suitable arrangements similar to those provided for by section 2 of said order of December 3, 1904.

But such goods, wares, and merchandise not accompanied by consular invoice of the consul of the republic shall not be permitted to land at Ancon or Cristobal.

SEC. 2. The order of December 3, 1904, shall be construed to permit free exportation and consignment of goods, wares, and merchandise and free transit of persons and vehicles from the republic through the Canal Zone and from the terminal ports thereof.

WHITE HOUSE, *January 5, 1905.*

WAR DEPARTMENT,

Washington, D. C., January 7, 1905.

By direction of the President, it is hereby ordered that—

1. To entitle goods, wares, and merchandise to entry at Ancon and Cristobal, the terminal ports of the Isthmian Canal, Canal Zone, Isthmus of Panama, it is necessary that it be established by the certificate of a member of the Isthmian Canal Commission, or of the chief engineer of the Isthmian Canal Commission, or of the chief of the Department of Material and Supplies, that said goods, wares, and merchandise are necessary and convenient for the construction of the Isthmian Canal or for the use and consumption of certain officers and employees in the service of the United States and of the Government of the Canal Zone and their families, stationed on the Isthmus of Panama, and are to be devoted to that purpose exclusively.

2. The certificates above required shall be granted only when the goods, wares, and merchandise to be certified are (1) the property, including live stock and forage, of or under contract of purchase by the United States and intended for use in the work of constructing the canal or the sanitation of the Isthmus; or for the service of the Government of the Canal Zone; (2) the property, including live stock and forage, of or under contract of purchase by a contractor with the United States or the Government of the Canal Zone for work on the construction of the Isthmian Canal, the sanitation of the Isthmus of Panama, provided that any goods, wares, or merchandise that are to be offered for sale by any contractor to his employees or otherwise shall not be entitled to such entry; (3) the property of the Government of the Canal Zone or of any municipality of said zone; (4) property and provisions intended for sale in commissaries established and operated by the Isthmian Canal Commission to officers, employees, and contractors of the Isthmian Canal Commission, of the Panama Railroad Company, or of any contractor with the Isthmian Canal Commission for work on the Isthmus (together with the families of such persons), who are citizens of the United States or who received compensation on what is known as the gold pay roll of the Commission, of the railroad company, or such contractor; (5) household furniture of such officers and employees of the Isthmian Canal Commission stationed in the Canal Zone, or Republic of Panama, including such articles, effects, and furnishings as pictures, books, musical instruments, chinaware, bed and table linen, and kitchen utensils; also wearing apparel, toilet objects, and articles for personal

use; books, portable tools, and instruments; jewelry and table services, in quantities and of the class suitable to the rank and position of such officers and employees and intended for their own use and benefit and not for barter or sale, imported from the United States.

3. This order contemplates the exclusion from benefits of the commissaries established and maintained by the Commission of all employees and workmen who are natives of tropical countries wherein prevail climatic conditions similar to those prevailing on the Isthmus of Panama, and who therefore may be presumed to be able to secure the articles of food, clothing, household goods and furnishings, of the kind and character to which they are accustomed, from the merchants of Panama, Colon, and the towns of the Canal Zone, and whose ordinary needs may be supplied without recourse to the Government commissaries. Should it develop hereafter that said merchants charge prices in excess of legitimate profit, or practice other extortion, the United States, for the protection and assistance of all its employees, whether from the tropical or temperate zone, will supply its commissaries with such staple articles as are required and desired by the inhabitants of tropical countries, and permit all its employees and workmen and those of its contractors to avail themselves of the benefits and privileges afforded by said Government commissaries.

This order is to take effect on the 7th day of January, 1905.

WM. H. TAFT,
Secretary of War.

The CHAIRMAN OF THE ISTHMIAN CANAL COMMISSION,
Washington; D. C.

It is ordered that Joseph L. Bristow, of Kansas, be appointed a Special Commissioner for the purpose of visiting the ports of the Pacific Coast, the Isthmus of Panama, New York, and such other ports as may be necessary, to make an investigation into the present trade conditions and freight rates between the Atlantic and Pacific Coasts, across the Isthmus of Panama, and between the west coast of South America and the east coast of the United States, and Europe, for the purpose of determining the best policy to be pursued in the management of the Panama Railroad Company.

He is authorized to employ for this purpose a stenographer at not exceeding \$5 a day and his actual and necessary expenses, and to take evidence of all persons whose knowledge of trade conditions or rates will assist in reaching the necessary conclusion.

The Secretary of War will furnish to the Special Commissioner a letter of instructions, in detail, as to the course and extent of his investigations, and as to the time when he shall report his conclusions.

Until his report is forthcoming, the Commissioner will be allowed his actual expenses, and \$15 a day. The President will finally fix his entire compensation. As Mr. Bristow will need until January 20, 1905, to close up matters awaiting his disposition as Fourth Assistant Postmaster General, this order will take effect on that date. The Isthmian Canal Commission is directed to provide the funds needed in the execution of this order.

THEODORE ROOSEVELT.

WAR DEPARTMENT,

WAR DEPARTMENT,
Washington, January 19, 1905.

By order of the President, the Executive Order of January 17th is hereby amended by substituting for H. C. Warmouth, named therein, Dr. C. A. L. Reed.

WM. H. TAFT,
Secretary of War.

WHITE HOUSE,
Washington, D. C., April 1, 1905.

The practical result of the operations of the Isthmian Canal Commission appointed and acting under previous executive orders has not been satisfactory, and requires a change in the personnel of the Commission and in the instructions for its guidance.

The Commission will hold quarterly sessions the first of January, April, July, and October of each year, at the office of the Governor on the Isthmus of Panama, and will continue each session as long as public business may require. Further notice of such meetings shall not be necessary to their regularity. The Commission may hold special sessions at the call of the Chairman. Four members shall constitute a quorum, and the action of such majority shall be the action of the Commission.

The Commission, under the supervision and direction of the Secretary of War and subject to the approval of the President, is charged with the general duty of the adoption of plans for the construction and maintenance of the canal and with the execution of the work of the same; with the purchase and delivery of supplies, machinery and necessary plant; the employment of the necessary officers, employes and laborers, and with the fixing of their salaries and wages; with the commercial operation of the Panama Railroad Company and its steamship lines as common carriers; with the utilization of the railroad as a means of constructing the canal; with the making of contracts for construction and excavation, and with all other matters incident and necessary to the building of a waterway across the Isthmus of Panama, as provided by the Act of Congress of June 28, 1902.

For convenience and to secure the uninterrupted course of the work, an Executive Committee of not less than three members of the Commission shall be appointed by the Commission to act in place of the Commission during the intervals between the meetings of the Commission, and to report its doings in full to the Commission at the next regular meeting. A minute of every transaction of the Executive Committee shall be made, and one copy of the minutes shall be forwarded to the Secretary of War and another copy transmitted for the consideration of the Commission at its next meeting. Regular meetings of the Executive Committee shall be held at the office of the Governor on the Isthmus of Panama at 10 o'clock in the forenoon on each Monday and Wednesday of every week, and further notice of

such meetings shall not be necessary to their legality. A majority of their number shall constitute a quorum for the transaction of business at such meetings. The action of such majority shall be the action of the Executive Committee.

For convenience of executing the work to be done, there shall be constituted three executive departments:

(a) The head of the first department shall be the Chairman of the Commission, who shall have direct and immediate charge of:

1. The fiscal affairs of the Commission;
2. The purchase and delivery of all materials and supplies;
3. The accounts, bookkeeping and audits;
4. The commercial operations in the United States of the Panama Railroad and steamship lines.

5. He shall have charge of the general concerns of the Commission, subject to the supervision and direction of the Secretary of War, and shall perform such other duties as may be placed upon him from time to time by the Secretary of War.

(b) The head of the second department shall be the Governor of the Zone, with the duties and powers indicated in the Executive Order of May 9, 1904, which includes, in general:

1. The administration and enforcement of law in the Zone;
2. All matters of sanitation within the Canal Zone, and also in the cities of Panama and Colon and the harbors, etc., so far as authorized by the treaty, the Executive Orders and Decrees of December 3, 1904, between the United States and the Republic of Panama relating thereto.

3. The custody of all supplies needed for sanitary purposes, and such construction necessary for sanitary purposes, as may be assigned to this Department by the Commission.

4. Such other duties as he may be charged with from time to time by the Secretary of War.

5. He shall reside on the Isthmus and devote his entire time to the service, except when granted leave of absence by the Secretary of War.

(c) The head of the third department shall be the Chief Engineer. He shall have full charge on the Isthmus:

1. Of all the actual work of construction carried on by the Commission on the Isthmus;

2. The custody of all supplies and plant of the Commission upon the Isthmus;

3. The practical operation of the railroad on the Isthmus, with the special view to its utilization in canal construction work.

4. He shall reside on the Isthmus and devote his entire time to the service, except when granted leave of absence by the Secretary of War.

APPOINTMENT OF OFFICERS.

All officers and employes shall be appointed and their salaries shall be fixed by the head of the department in which they are engaged. Their appointment and salary shall be subject to the approval either of the Commission or, if the Commission is not in session, of the Executive Committee. The employment of laborers, where the contract of employment is made in the United States or outside of the Isthmus, shall be negotiated and concluded by the Chairman of the Commission, subject to the approval of the Executive Committee. Where the employment of laborers is effected upon the Isthmus, it shall be conducted under the supervision of the Chief Engineer; subject to the approval of the Executive Committee.

CONTRACTS.

Contracts for the purchase of supplies or for construction involving an estimated expenditure exceeding \$10,000 shall only be made after due public advertisement in newspapers of general circulation, and shall be awarded to the lowest responsible bidder, except in case of emergency, when, with the approval of the Secretary of War, advertising may be dispensed with. In the making of contracts for supplies or construction involving an estimated expenditure of more than \$1,000 or less than \$10,000, competitive bids should be secured by invitation or advertisement whenever practicable.

As soon as practicable after the date of this order, the Isthmian Canal Commission, as hereafter constituted, shall hold a session in the city of Washington for the general purpose of reorganization under this order, and for the special purpose of fixing the number and character of officers and employes to serve in the city of Washington in the work of the Commission. The Commission is especially charged with the duty of maintaining a complete system of accounts on the Isthmus, which shall be duplicated in Washington, so that there may always be in Washington the proper means of informing the President, the Secretary of War and the Congress of the amount of work done, the cost of the same, the amount of money available, the amount of money expended, and the general financial condition of the enterprise.

BOARD OF CONSULTING ENGINEERS.

There will hereafter be appointed by the President, nine civil engineers of the highest standing, having experience in works of canal construction and hydraulics, to constitute a Board of Consulting Engineers, to which will be submitted by the Isthmian Canal Commission, for its consideration and advice, the important engineering questions arising in the selection of the best plan for the construction of the canal. The recommendation of the Board of Consulting Engi-

neers shall be considered by the Isthmian Canal Commission, and, with the recommendations of the Commission, shall finally be submitted, through the Secretary of War, to the President for his decision.

REPORTS.

The executive officers of the Commission shall make duplicate reports upon the work and operation of their respective departments to the Secretary of War and the Isthmian Canal Commission from time to time, and as often as may be required by the Secretary of War or the Chairman of the Commission.

The Secretary of War will make to the President a report at least annually, and as often as he may deem advisable or the President may require.

All executive orders relating to the subject of the Panama Canal, except so far as they may be inconsistent with the present order, remain in force.

Theodore P. Shonts is hereby appointed a member of the Isthmian Canal Commission, and its Chairman; Charles E. Magoon is hereby appointed a member of the Commission and Governor of the Canal Zone; the appointment as Governor shall take effect upon the date of his arrival on the Isthmus, and the resignation of the present incumbent of said office shall thereupon take effect; John F. Wallace is hereby appointed member of the Commission and Chief Engineer; Rear-Admiral Mordecai T. Endicott, U. S. N.; Brigadier-General Peter C. Hains, U. S. A. (retired); Colonel Oswald H. Ernst, Corps of Engineers, U. S. A., and Benjamin M. Harrod are hereby appointed members of the Isthmian Canal Commission.

THEODORE ROOSEVELT.

WAR DEPARTMENT,
Washington, D. C., March 30, 1905.

MR. PRESIDENT: In the matter of the reorganization of the machine by which the Panama Canal is to be built, I beg first to call your attention to the extreme importance of fixing a definite plan with respect to which you may feel reasonable certainty, first, that it can be practically executed and will result in a navigable canal, and, second, that the navigable canal will be the one best adapted to the demands which may be made upon it by the commerce of the world.

The Act of Congress evidently contemplates a canal with locks, the cost of which shall be in the neighborhood of \$200,000,000, including the money already expended. It is quite within the bounds of possibility that the best form of canal will be a sea-level canal, with a tidal lock only, at one end, and that the cost of it may exceed the \$200,000,000 in the mind of Congress by at least \$100,000,000 more.

The work of the engineering department of the present Commission has been largely devoted to obtaining the data upon which the plan of the canal must be determined. These data include topographical measurements, borings, the character of the soil, the flow of water in the rivers—all stated with sufficient exactness to secure the closest calculations by experienced engineers, though not on the ground. It is probable that within the next few months these data will have been so fully ascertained by the Chief Engineer, Mr. Wallace, and his assistants that they may be submitted to a board of engineers of the highest standing for recommendation as to the best plan upon which to proceed with the work.

It also has been made apparent, by the reports of Mr. Wallace and the Commission, that whatever plan is likely to be adopted, work of excavation and construction which would have to be done under any plan may proceed without waste of energy for a period quite long enough to enable you to decide which is the best plan.

I suggest, therefore, that the first work to be done is the appointment of an advisory board of engineers, say seven or nine in number, to be selected from the engineers having especial knowledge of hydraulic engineering and canal construction, to whom shall be submitted all possible information with respect to the projected Panama Canal, both that obtained by the French engineers before our purchase of the plant, and the data obtained by the Chief Engineer of the present Canal Commission, together with all projects suggested for the solution of the problem which the Canal Commission deem reasonably possible or practicable; that this advisory board be invited to Washington for the purpose of agreeing upon its recommendations in the premises, and that, if possible, such recommendations be made before the regular meeting of Congress in December; that the recommendations be submitted to the Canal Commission as then constituted for its approval or modification, and, with the recommendations of the Canal Commission, be submitted to the President for his action and transmission to Congress. As already suggested, this work of securing the best plan and its approval by Congress need not delay in any way the preliminary work adapted to any possible plan, or the highly critical work of sanitation, the extreme importance of which you have already emphasized in your previous instructions to the Canal Commission.

It is conceded, even by its own members, that the present commission has not so developed itself into an executive body as to give hope that it may be used successfully as an instrumentality for carrying on the immense executive burden involved in the construction of the canal, and it remains for the President, in the failure of Congress to act, to reorganize the Commission, both by change in personnel and by certain instructions as to its internal procedure and distribution

of powers and authority, to secure greater rapidity and efficiency in the doing of the work.

It is not to be supposed that Congress intended that the Commission was personally to do the work, or to come nearer to the direct agencies in doing the work than the directory of a railroad comes to the construction of railroad work, and we may assume, therefore, that it was quite within the Congressional intention that the Commission might, for convenience and rapidity of action, after formulating the general plan of work, delegate to a committee or committees the doing of the work in detail, the result to be reported subsequently, of course, to the full Commission. The Commission should, therefore, appoint an Executive Committee, to be constituted and empowered as hereafter stated.

The actual executive work must be divided by the Commission into departments. One department would naturally be the Political Department; that is, the control of the Zone, over which there should be an administrator or governor, and to secure harmony of action, the wise policy is that already followed of appointing a member of the Commission to be Governor. This department should include, as it does now, the Bureau of Sanitation, because the latter involves policing the Zone and the two cities of Colon and Panama. Another department should be the Engineering Department, or department of construction, under which the work is to be organized and actually done. It should include the custody of supplies and the care of plant, and the practical operation of the railroad on the Isthmus, with the special view to its utilization in canal construction. The Chief Engineer must be the head of this, and is so important a factor in the whole enterprise that he should be given the powers and dignity of a member of the Commission also. Another, and in many respects the most important department, is that which embraces the functions of financing the operations of the Commission, of purchasing the supplies, of the accounts and audits, the commercial operations of the Panama Railroad Company and the steamship lines, the general oversight of the work and the duty of reporting the progress of the same through the Secretary of War to the President. The head of this department should be the Chairman of the Commission. All subordinates in departments should be appointed by the heads thereof under those provisions of the civil service law which may have been made applicable, and their salaries fixed by same authority, subject to the approval of the Commission, or, in the intervals between the meetings of the Commission, by the Executive Committee.

An important change from the present condition of affairs should be the transfer of the headquarters of the Commission from Washington to the Isthmus of Panama, where the work is to be done. No meeting of the Commission or Executive Committee should be held

out of the Isthmus except by express authority of the Secretary of War. The attention of all engaged in the enterprise will thus be fixed on the work. With the general authority of the Executive Committee, it will be entirely possible for the work to proceed unhindered without more frequent meetings of the Commission than once a quarter. The Executive Committee should have power to act while the commission is not in session in the purchase of all supplies, to confirm all officers and employes except heads of departments, and to fix their salaries, and to make contracts for construction. The Executive Committee thus appointed should keep accurate minutes of its transactions and submit them to the Secretary of War and the Commission, which, having found the same to be within the authority of the committee and executed, shall ratify and confirm them, or, if unexecuted, may revise them. Contracts for the purchase of supplies or of construction, the estimated cost of which may exceed \$10,000 should be let after due public advertisement, upon plans and specifications approved by the Executive Committee or by the Commission, unless with the approval of the Secretary of War, on grounds of an emergency in a special case, such advertisement be dispensed with. In all other purchases or contract involving the expenditure of more than \$1,000, real competition should be invited when practicable. By means of an executive committee constantly in session the delays incident to awaiting the decision of a large body like the Commission may be avoided, while its examination of the doings of the Executive Committee every three months, and its power to reverse unauthorized acts and to revise everything not completely executed, will insure the conservation sought by the establishment of the larger board.

The change of headquarters and power from Washington to the Isthmus will doubtless require a radical change in the office of the Commission in Washington. I am quite sure that greater economy and more satisfactory methods of accounting can be secured than now exist. Machinery for purchase of supplies and a force sufficient to maintain a duplicate set of accounts and the necessary correspondence must, of course, be maintained in Washington, but very little else is needed. But these changes may be safely left to the Commission and the Executive Committee as newly constituted.

I beg to submit herewith the resignations of all the present Canal Commission, to take effect at your pleasure.

I respectfully recommend the appointment of a new Commission and a designation of the Chairman of the Commission, the Governor of the Zone, and the Chief Engineer, and the issuing of an executive order embodying the recommendations herein.

Respectfully yours,

WM. H. TAFT,
Secretary of War.

The PRESIDENT.

By direction of the President, and in accordance with his order of April 1, 1905, each of the seven members of the Isthmian Canal Commission shall be allowed and paid a salary of \$7,500 per annum as such member. In addition to their several salaries as members of the Commission, the Chairman of the Commission shall be allowed and paid a salary of \$22,500 per annum; the Chief Engineer shall be allowed and paid a salary of \$17,500 per annum, and the Governor of the Zone shall be allowed and paid a salary of \$10,000, and each of said officers shall be allowed the use of a furnished dwelling house on the Isthmus; the members of the Commission other than the heads of the above-named departments will be allowed and paid their actual and necessary expenses while in attendance at the regular or specially called meetings of the Commission held on the Isthmus, and also their actual traveling expenses to and from the meetings of the Commission on the Isthmus or at Washington, as the case may be; and the three heads of the departments above mentioned shall be allowed and paid their expenses of travel while on the business of the Commission.

The present Governor of the Zone, Major-General George W. Davis, will be allowed and paid up to the date when his resignation as Governor becomes effective, and notwithstanding his resignation as a member of the Commission, compensation at the same rate as he is now receiving as a member of the Commission and as Governor of the Zone, together with his actual and necessary traveling expenses to his home in the United States.

WM. H. TAFT,
Secretary of War.

APRIL 3, 1905.

At a meeting of the Commission, as reorganized, held April 3, 1905, at its office in Washington, consideration was given as to the best method of securing results in construction and of making more effective the administration of the work of the Commission; and after consideration, the Commission, upon its own judgment and by its own conclusions, duly and unanimously adopted the following resolutions:

Resolved:

1. The Commission shall hold quarterly sessions the first day of January, April, July and October of each year, at the office of the Governor on the Isthmus of Panama, and shall continue each session

as long as public business may require. Further notice of such meetings shall not be necessary to their regularity. The Commission may hold special sessions at the call of the Chairman. Four members shall constitute a quorum, and the action of such majority shall be the action of the Commission. A copy of the minutes of each meeting of the Commission shall be immediately forwarded to the Secretary of War.

2. For convenience, and to secure the uninterrupted course of the work, an Executive Committee of three members of the Commission is hereby appointed by the Commission to act in place of the Commission during the intervals between the meetings of the Commission, and to report its doings in full to the Commission at the next regular meeting. A minute of every transaction of the Executive Committee shall be made, and one copy of the minutes shall be immediately forwarded to the Secretary of War and another transmitted for the consideration of the Commission at its next meeting. Regular meetings of the Executive Committee shall be held at the office of the Governor on the Isthmus of Panama at 10 o'clock in the forenoon on each Monday and Wednesday of every week, and further notice of such meetings shall not be necessary to their legality. A majority of their number shall constitute a quorum for the transaction of business at such meetings. The action of such majority shall be the action of the Executive Committee.

On motion, the following Commissioners were appointed members of the Executive Committee—i. e., Theodore P. Shonts, Charles E. Magoon, and John F. Wallace.

3. For convenience of executing the work to be done, there shall be constituted three executive departments:

(a) The head of the first department shall be the Chairman of the Commission, who shall have direct and immediate charge of:

1. The fiscal affairs of the Commission.
2. The purchase and delivery of all materials and supplies.
3. The accounts, bookkeeping and audits.
4. The commercial operations in the United States of the Panama Railroad and steamship lines.

5. He shall have charge of the general concerns of the Commission, subject to the supervision and direction of the Secretary of War, and shall perform such other duties as may be placed upon him from time to time by the Secretary of War.

(b) The head of the second department shall be the Governor of the Zone, with the duties and powers indicated in the Executive Order of May 9, 1904, which includes, in general:

1. The administration and enforcement of law in the Zone.
2. All matters of sanitation within the Canal Zone, and also in the cities of Panama and Colon and the harbors, etc., so far as author-

ized by the treaty and the Executive Orders and Decree of December 3, 1904, between the United States and the Republic of Panama relating thereto.

3. The custody of all supplies needed for sanitary purposes, and such construction necessary for sanitary purposes as may be assigned to this department by the Commission.

4. Such other duties as he may be charged with from time to time by the Secretary of War.

5. He shall reside on the Isthmus, and devote his entire time to the service, except when granted leave of absence by the Secretary of War.

(c) The head of the third department shall be the Chief Engineer. He shall have full charge on the Isthmus:

1. Of all the actual work of construction carried on by the Commission on the Isthmus.

2. The custody of all the supplies and plant of the Commission upon the Isthmus other than all supplies needed for sanitary purposes.

3. The practical operation of the railroad on the Isthmus with the special view to its utilization in canal construction work.

4. He shall reside on the Isthmus, and devote his entire time to the service, except when granted leave of absence by the Secretary of War.

4. All officers and employes shall be appointed and their salaries shall be fixed by the head of the department in which they are engaged. Their appointment and salary shall be subject to the approval either of the Commission or, if the Commission is not in session, of the Executive Committee. The employment of laborers, where the contract of employment is made in the United States or outside of the Isthmus, shall be negotiated and concluded by the Chairman of the Commission, subject to the approval of the Executive Committee. Where the employment of laborers is effected upon the Isthmus, it shall be conducted under the supervision of the Chief Engineer, subject to the approval of the Executive Committee. The Commission shall maintain a complete system of accounts on the Isthmus, which shall be duplicated in Washington, so that there may always be in Washington the proper means of informing the President, the Secretary of War, and the Congress of the amount of work done, the cost of the same, the amount of money available, the amount of money expended, and the general financial condition of the enterprise.

5. Contracts for the purchase of supplies or for construction involving an estimated expenditure exceeding \$10,000 shall only be made after due public advertisement in newspapers of general circulation, and shall be awarded to the lowest responsible bidder, except in case of emergency, when, with the approval of the Secretary of War, advertising may be dispensed with. In the

making of contracts for supplies or construction involving an estimated expenditure of more than \$1,000 and less than \$10,000, competitive bids should be secured by invitation or advertisement whenever practicable.

6. The executive officers of the Commission shall make duplicate reports upon the work and operation of their respective departments to the Secretary of War and the Isthmian Canal Commission from time to time and as often as may be required by the Secretary of War or the Chairman of the Commission.

Upon further motion it was duly and unanimously

Resolved, That the accounts and financial records and affairs of this Commission as recently constituted be examined, audited and reported upon by auditors engaged independently of the existing office force, and that for this purpose the Public Accountants' Corporation, now in the service of the Commission, be employed to make such examination, audit and report at the earliest practicable date.

Resolved, further, That the books of account of the Commission at the Panama and Washington offices be promptly balanced as of this date, and that the books, vouchers, and records of the Commission up to this date be carefully identified and preserved for reference in the future, but that the transactions of the Commission as newly constituted be not entered therein, but be entered in an entirely new set of books of account, and that the records thereof be separately kept and preserved, so that the proceedings of the Commission as constituted can be readily and conveniently distinguished and accounted for independently of each administration; and the Secretary is directed to transmit copies of this resolution to the heads of departments for their information and guidance.

Resolved, further, That the Chairman be and he is hereby authorized and directed to cause to be inaugurated a system of book-keeping, accounting and reports by which most conveniently, accurately and intelligibly the operations of the Commission can be noted and considered, both as respects this Commission itself and the authorities to which it is directly accountable—the President, the Congress, and the Secretary of War; and for this purpose he is authorized to employ such person or persons and incur such expenses as he may deem advisable to accomplish the purpose.

The Commission considered the subject of Office Organization in Washington, in view of the resolutions adopted at this meeting, and the concentration of practical work more largely upon the Isthmus.

Thereupon it was duly and unanimously

Resolved, (1) That, so far as practicable, the work of the Commission be concentrated on the Isthmus of Panama, and that the Washington office be conducted upon this basis; and that the

Commission promptly proceed in the examination and consideration of the present organization and personnel thereof in the Washington office for action of the Commission in due course.

Resolved, (2) That, for greater effectiveness in the administrative work of the Commission, there is hereby established at Washington an "Office of Administration" for the conduct of such operations as the Commission may, from time to time, determine to there conduct, and which shall include:

Records concerning all purchases and delivery of material and supplies (including commissary stores).

Fiscal affairs.

General books of account, containing details of all transactions of the Commission in the United States and adequate summary of all other accounts on the Isthmus. Duplicate accounts in summary being regularly transmitted from the Isthmus to the Washington office; vouchers and contracts to be taken in sufficient number in original to at all times furnish to the office at Washington a complete and original set thereof.

General auditing and accounting.

Correspondence of the Commission in the United States.

Now, therefore, by the authority of the President of the United States; and with the concurrence and approval of the Secretary of War first had, be it ordered by the Isthmian Canal Commission that:

SECTION 1. The following rules and regulations shall apply to the accounting system of the Government of the Canal Zone, and shall take effect and be in force July 1, 1905.

RULES AND INSTRUCTIONS RELATIVE TO THE ACCOUNTING SYSTEM OF THE GOVERNMENT OF THE CANAL ZONE, ISTHMUS OF PANAMA.

THE GENERAL AUDITOR.

RULE 1. Pursuant to the provisions of section 10, Act No. 8, Laws of the Canal Zone, the General Auditor for the Isthmian Canal Commission and his duly authorized deputies shall receive, examine and settle all accounts pertaining to the revenues and receipts derived from the Canal Zone and expenditures paid therefrom, and certify the balances thereon to the Governor of the Canal Zone, and shall preserve the accounts and vouchers after settlement.

THE LOCAL AUDITOR.

RULE 2. In accordance with the Circular No. 15 of the Executive Committee of this Commission, and in further pursuance of section 10, Act No. 8, Laws of the Canal Zone, the Local Auditor in charge

of the accounts of the Isthmian Canal Commission, located on the Isthmus of Panama, shall discharge the duties and perform the services of the Auditor for the Government of the Canal Zone, and the acts of the Local Auditor, consistent with the prescribed regulations of the General Auditor, shall be binding upon the General Auditor until revoked or disapproved by overt act of the General Auditor.

THE CHIEF CLERK.

RULE 3. There shall be appointed by the Auditor, with the approval of the Isthmian Canal Commission, a Chief Clerk, who shall sign in the name of the Auditor such official papers as the Auditor may designate, and perform such other duties as the Auditor may prescribe. He shall have charge of the Bureau as Acting Auditor in case of death, resignation, sickness or other absence of the Auditor until his successor is appointed.

ACCOUNTS OF TREASURY DEPOSITS AND WITHDRAWALS.

RULE 4. The expenditure of moneys received through Canal Zone revenue shall be made on properly prepared and approved vouchers, approved for payment to be made by the Governor.

RULE 5. All receipts issued by the Treasurer for deposits with the Treasurer shall be in duplicate and shall be countersigned by the Auditor. When so countersigned, one receipt in every case shall be retained in the office of the Auditor and the other shall be delivered or transmitted by the Auditor to the person by whom the payment was made, after the same has been duly registered in all its particulars under proper headings.

RULE 6. The receipts retained by the Auditor will constitute the necessary check in his examination and settlement of the accounts of the Treasurer as the authority for charging the Treasurer with moneys received, and such receipts will be filed in the office of the Auditor with the accounts in which the credit is taken.

RULE 7. Vouchers paid by the Treasurer with the proper evidence of payment—which shall be the proper receipt of the payee thereon—shall constitute the vouchers upon which the Treasurer shall receive credit for payments made, and after the settlement of the accounts of the Treasurer by the Auditor, the vouchers shall be filed therewith.

RULE 8. The Auditor shall prescribe the forms for keeping and rendering all accounts subject to his examination and settlement, and issue all necessary instructions to the officers and agents rendering such accounts.

RULE 9. And in case any officer or agent whose duty it is to collect and receive moneys arising from the revenues of the Canal Zone, of whatever kind, and to make disbursements of such moneys for any purpose, shall fail to render complete accounts of such receipts and

disbursements to the Auditor, or to transmit the same within five days after the expiration of the month to which they pertain, or shall neglect to render the same when requested so to do, it shall be the duty of the Auditor forthwith to report such case to the Governor for proper action.

RULE 10. There shall be in the office of the Auditor a Division of Bookkeeping in which shall be kept proper books of entry and ledgers for recording the general accounts of the receipts and expenditures pertaining to the revenues of the Zone, and the personal accounts of agents and officers authorized to collect the same and the disbursement of moneys by the Treasurer upon vouchers as herein provided, and of all other accounts or claims allowed and certified by the Auditor, including accounts of appropriation. The system of bookkeeping adopted by the Auditor shall be a double-entry system.

RULE 11. The receipts issued by the Treasurer for moneys received on deposit, before being countersigned by the Auditor, shall be entered in a Ledger of Treasury Receipts as funds deposited, as Postal Receipts, Internal Revenue Receipts, Miscellaneous Receipts, or as Payments or Repayments to appropriations, or any subheading of these classes of deposits as may seem proper, respectively, and in making such entries from the Treasury receipts, the number and date of the receipt and the name and official designation, if any, of the person by whom the deposit was made, shall be noted. These funds shall thereupon be treated as one fund, known as the general fund from which all appropriations from "moneys in the Treasury not otherwise appropriated" shall be made.

RULE 12. All vouchers shall be charged against the available fund and against the account of the services and appropriation for which such voucher is drawn, and in making such debit entries the number and date of the voucher and the name of the person, with official designation, if any, to whom paid, shall be noted. The Auditor shall so keep his record as to be able to show at any time the amount of money disbursed on account of any appropriation, as shown by the voucher issued and by the accounts as audited.

REVENUE ACCOUNTS.

RULE 13. All officers or agents authorized to receive and collect moneys arising from the revenues of the Canal Zone, of whatsoever kind, shall be required to pay the full amounts received and collected by them respectively, to the Treasurer, and to render to the Auditor monthly accounts therefor within five days after the expiration of the month to which they pertain, accompanied by proper itemized and certified statements and returns of the revenues collected, showing when, by whom and on what account collected.

RULE 14. In the rendition of such revenue accounts the officers or agents will charge themselves with all revenues received and collected during the period covered by the account, and take credit for the amounts paid to the Treasurer as shown by the duplicate receipts in their possession and countersigned by the Auditor, the number and date of such receipts being noted in the entries of amounts paid to the Treasurer. These duplicate receipts will be retained by the officer or agent claiming credit therefor.

RULE 15. In the audit of such revenue accounts the Auditor shall compare and check the Treasury receipts of record in his office with the corresponding entries in the account of the officer or agent as rendered, making proper notation in the Treasurer's account of the counter credit to the depositor.

RULE 16. All revenue accounts shall be rendered and kept separately under the appropriate funds or heads of account to which they respectively pertain; that is, all revenues arising in the Department of Post Offices under the head of Postal Receipts; all revenues derived from internal taxes and duties, shall be entered under the head of Internal Revenue Receipts; all revenues from other sources under the head of Miscellaneous Receipts; and all refunds for overpayment under the heading of Repayments.

RULE 17. All officers or agents of the Government of the Canal Zone whose duty it is to collect and receive revenues or other moneys and deposit the same in the Treasury shall make deposits or remittances of same, regardless of the amount received or collected, as often as once a month, where safe and possible, and if there is no opportunity for such remittance within the month, as soon as possible thereafter, and a deposit shall be made in every case as soon as possible where the revenues or moneys in the hands of any officer or agent amount to two hundred dollars, United States Currency, or its equivalent in local currency: *Provided*, That no such officer or agent shall be required to make a deposit oftener than once a day, and *provided further*, That postmasters who are authorized to issue and pay money orders shall remit by registered mail to their designated depositary all sums received by them from sale of money orders in excess of their authorized reserve or the amount of the advices of unpaid orders on hand less than two weeks, such remittances to be made with each and every mail dispatch from their respective offices which may convey mail to the Treasurer.

RULE 18. Claims of officers or agents whose duty it is to collect or account for public money, for losses of funds in transit, by fire, burglary or other unavoidable casualty, shall be submitted to the Auditor within one month after such loss occurs, with all the evidence in the case, immediate advice of the fact to be sent to the Auditor pending forwarding of complete report. If the Auditor shall find

that the said funds were properly in the hands of such officer or agent, or properly remitted, or that the loss resulted through no fault of said officer or agent, he may *with the written consent of the Governor*, credit the account of such officer with the loss; *Provided*, That in no case shall a credit in excess of one thousand dollars be given in this manner. Claims for losses in excess of one thousand dollars shall be submitted through the Auditor and Governor for relief by action of the Isthmian Canal Commission.

RULE 19. The Auditor may with the written consent of the Governor mitigate, remit, remove, compromise, release or discharge any liability, in whole or in part, to the Government, in any matter before him, when, in his judgment, the interests of the Government seem to require it, subject to such restrictions as may be provided by law.

RULE. 20. The Auditor shall supervise the collection of all debts due the Government of the Canal Zone through the usual civil or judiciary channels, and institute all such measures as may be authorized by law to enforce the payment of such debts and recovery of all amounts found to be due said Government in connection with his settlement and adjustment of accounts.

MONEY ORDER ACCOUNTS.

RULE 21. The Auditor shall keep the accounts of the Money Order Business separately, and in such manner as to show the number and amount of money orders issued at each post office, and the number and amount paid, and the fees received. The Auditor shall certify quarterly the receipts as fees from the sale of money orders and require the same to be deposited with the Treasurer of the Zone as postal receipts. Losses of money order funds in transit, by fire, burglary, or other unavoidable casualty for which credit may be given shall be deducted from the fees collected before the quarterly transfer to the depositary of such fees as postal receipts.

RULE 22. Transfers of money from postal receipts to money order funds may be made by the postmaster, under such regulations as the Auditor may prescribe when his receipts from the sale of money orders are insufficient to pay the money orders drawn upon his office. Credit for such transfers of postal funds to money order funds will be taken in the monthly postal account of the postmaster. At the close of each quarter all such transfers of funds from postal to money order accounts shall be deposited by the Director of Posts, or other officer in charge of postal affairs, with the Treasurer of the Zone, as revenues for the service of the Division of Posts upon certification of the Auditor of the amount of such funds to be so deposited.

RULE 22½. The Treasurer of the Canal Zone shall be required to keep an account of money order funds deposited by postmasters with him to the credit of the Director of Posts, subject to his official draft,

when countersigned by the Local Auditor, drawn for needful advances to postmasters of funds with which to pay money orders lawfully drawn upon them, and it shall be the duty of all postmasters to make prompt remittances to the Treasurer of the Zone of all money order funds including all fees thereon, in their hands, not needed to meet drafts of which they have notice, the same to be deposited to the credit of the Director of Posts as money order funds.

JURISDICTION OF THE AUDITOR.

RULE 23. The jurisdiction of the Auditor for the Canal Zone over accounts and all vouchers pertaining thereto, shall be exclusive. His decision shall be final and conclusive upon administrative branches of the Government, except that appeals thereon may be taken by the party aggrieved or the head of the department concerned within one year, in the manner prescribed in Rule 36. The Auditor for the Zone shall, except as herein otherwise provided, have like authority as that conferred by law upon the several auditors of the United States and the Comptroller of the United States Treasury, and is authorized to communicate directly with any person or officer having claims before him for settlement, or with any officer or department having official relations with his office.

REPORTS.

RULE 24. The Auditor shall forward to the Secretary of War, not later than ten days after the expiration of each month, a full and complete report of all money received by the Treasurer during the preceding month, as shown by the entries made from the Treasury receipts retained in the Auditor's office; a statement of all payment of moneys made on vouchers during the preceding month, and an itemized statement of all other accounts covering receipts, disbursements and expenditures audited during the preceding month.

DEPOSITARY OF CANAL ZONE.

RULE 25. The Treasurer of the Canal Zone shall keep a properly detailed account in permanent books of record of moneys received by him, which shall be entered under appropriate heads, with the name of the agents, officers and persons from whom received, and the dates of receipt.

RULE 26. All moneys received by the Treasurer shall be credited, respectively, as deposits on account of post office receipts, as deposits on account of internal revenue receipts, on account of miscellaneous receipts, in accordance with the invoice accompanying the fund, which in all cases shall indicate the proper heading or classification under which the fund shall be credited.

RULE 27. The accounts of the Treasurer and of all officers and agents of the Canal Zone shall be kept in the money in which it is received and disbursed, but in all reports to the Secretary of War the amounts therein shall be stated in the money of the United States at the authorized rate of conversion.

RULE 28. The Treasurer shall issue receipts in duplicate for all moneys received, which shall be numbered consecutively, and shall bear the date upon which the deposit is actually made, and show from whom and what account received, and the amounts in money of the United States; and also when paid in any foreign coin or currency, the amounts and kind of foreign money in which payments are made shall be stated upon the receipts and the rates at which the same are reduced to money of the United States.

RULE 29. All receipts, original and duplicates, issued by the Treasurer, shall be registered and countersigned by the Auditor of the Zone, without which they shall be invalid, and for this purpose the Treasurer shall, immediately upon issuing each receipt in duplicate, transmit both receipts to the Auditor.

RULE 30. No payment shall be made by the Treasurer except upon vouchers approved by the Governor and registered by the Auditor, and such vouchers when paid and accompanied by proper evidence of payment, which shall be the receipt of the payee, shall be the voucher upon which the Treasurer shall receive credit in the settlement of these accounts.

RULE 31. The Treasurer shall render monthly accounts of the receipts and payments for account of the Government of the Canal Zone, and submit the same to the Auditor for examination and settlement, not later than ten days after the expiration of each month. In rendering such accounts the Treasurer shall charge himself with all moneys received during the period covered by the account, under the appropriate funds or heads of accounts.

RULE 32. The Treasurer shall take credit for all moneys paid out and file with the account the vouchers properly canceled.

RULE 33. The Treasurer of the Canal Zone shall give bond with sufficient surety, to be approved by the Isthmian Canal Commission, for the faithful performance of the duties herein prescribed, and for the full payment on demand of all balances found due, in such amount as shall from time to time be fixed by the Commission.

RULE 34. The Auditor shall make semi-annually, and oftener if deemed expedient, an examination of the books and accounts of the Treasurer of the Zone, and also an examination and count of the moneys in the hands of the Treasurer, and such other pertinent matters as may be desirable; and submit his receipt thereon to the Governor and Secretary of War.

TITLE TO BE OBSERVED IN THE RENDITION AND CERTIFICATION OF
ACCOUNTS.

RULE 35. All accounts of the Treasurer of the Zone and of the various officers and agents authorized to collect the revenues, receive moneys and make disbursements, and all other accounts subject to examination and settlement by the Auditor shall be with "The Government of the Canal Zone," and all balances certified by the Auditor shall be certified as due to or from said Government, as the case may be.

APPEALS FROM THE ACTION OF THE AUDITOR.

RULE 36. Any person aggrieved by the action or decision of the Auditor in the settlement of this account or claim by that officer, may within one year take an appeal in writing to the Governor, which shall specifically set forth the particular action of the Auditor to which exception is taken, with the reasons and authorities relied upon for reversing such action. If the Governor shall confirm the action of the Auditor, he shall so endorse the appeal and transmit it to the Auditor, and the action of the Auditor shall thereupon be final and conclusive. Should the Governor fail to sustain the action of the Auditor, he shall forthwith report his ground of disapproval to the Secretary of War, together with the appeal and the papers necessary for a proper understanding of the matter. The decision of the Secretary of War in such case shall be final and conclusive.

RULE 37. As soon after the close of each fiscal year as the accounts of said year may be settled and adjusted, the Auditor shall submit to the Governor, the Isthmian Canal Commission and the Secretary of War an annual report of the financial concerns of the Government of the Canal Zone, showing the receipts and disbursements of the various departments of the said Government of the Canal Zone, and make such other reports as may be required of him by the Governor, the Canal Commission or the Secretary of War.

RULE 38. The Auditor shall, at the time of settlement, send an official notification in writing to each person whose accounts have been settled in whole or in part in the Auditor's office, stating the balances found due thereon and certified, and the differences arising on such settlement by reason of disallowances or suspension made by the Auditor, or from other causes, which statement or differences shall be properly itemized. The reason for a disallowance or suspension of credit shall in all cases be stated.

RULE 39. A true copy of all orders of the Government of the Canal Zone which may originate a claim or in any manner affect the settlement of any account shall be transmitted to the Auditor by the proper officer.

RULE 40. Every contract under which a payment may be made shall be submitted to the Auditor with the account to which such payment pertains.

RULE 41. Wherever the word "Auditor" appears herein it shall be taken to mean the General Auditor for the Isthmian Canal Commission and his authorized corps of deputy auditors or local auditors to whom duties have been regularly assigned.

All orders of the Governor, and acts of the Isthmian Canal Commission, or parts thereof, which are in conflict with this order are hereby repealed.

Approved for the President.

WM. H. TAFT,
Secretary of War.

NOVEMBER 5, 1905.

When, in the judgment of the Civil Service Commission, no register contains an eligible having the special qualifications asked for by the Isthmian Canal Commission for service on the Isthmus of Panama, the Civil Service Commission may allow a temporary appointment, which may be made permanent on certificate of the Isthmian Canal Commission that such action is required in the interests of good administration.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *November 15, 1905.*

It is hereby ordered that the word "report" in the third line of the executive order of August 31, 1905, providing for an allowance of \$5,000 to each member of the Advisory Board of Engineers upon plans of the Panama Canal upon the completion of the report of the Board, be changed to "work." This change is made in order to permit the foreign members of the Board to receive their allowance before returning to their homes prior to the engrossing and signing of the completed report.

The amended order will read as follows:

"It is ordered that each member of the Advisory Board of Engineers upon plans of the Panama Canal shall be allowed \$5,000 payable upon the completion of the work of the Board. In addition thereto he shall when on duty with the Board be allowed \$15 per day for personal expenses from the date of leaving his home until his return thereto including Sundays and Holidays. He shall also be allowed the actual cost of transportation incurred by him in travel on duty in connection with the Board to include cost of ticket by railway or steamer, sleeping or parlor car accommodations, baggage transfer, cabs and portage.

"It is further ordered that the allowance of \$5,000 to General Davis and General Abbot shall be increased by the amount of their retired pay for the time during which they are employed upon the work of the Board, it being my intention that those members of the Board shall receive the same compensation for this work as the other members and this increase being made to provide for the usual deduction of retired officers' pay."

THEODORE ROOSEVELT.

THE WHITE HOUSE, *November 25, 1905.*

The quarterly session of the Isthmian Canal Commission for the first of January, next, may be held at the Office of the Commission in Washington, D. C., instead of at the office of the Governor of the Canal Zone on the Isthmus of Panama, as provided in Executive Order of April 1, 1905, in view of the necessity of the Commission for considering the report of the Advisory Board of Engineers, and the impossibility of leaving so soon for the Isthmus.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *December 7, 1905.*

Miss Anna F. McCormick may be permanently appointed to a position in the office of the Isthmian Canal Commission where she is at present temporarily employed.

"It is hereby ordered that each member of the Advisory Board of Engineers upon plans for the Panama Canal shall be allowed \$5,000, payable upon the completion of the report of the Board. In addition thereto he shall receive \$15 per day during the time he may be engaged upon the work of the Board, including Sundays and legal holidays, from the date of first leaving home to assemble as a Board until the date of arrival at home after the conclusion of his services on said Board. For the time, subsequent to final adjournment, required in closing the work of the Board, in completing its records, printing its report and appendix matter, and in distribution of the same, the Chairman is allowed the same per diem for 15 days additional.

"Each member shall also be allowed the actual cost of transportation incurred by him in necessary travel in connection with the work of the Board, to include cost of ticket by railway or steamer, sleeping or parlor car accommodations, baggage transfer, cabs and portorage.

Shonts, Charles E. Magoon, and the Chief Engineer of the Commission be allowed and paid their expenses of travel while on the business of the Commission.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *February 26, 1906.*

WAR DEPARTMENT,
Washington, January 5, 1908.

MY DEAR MR. PRESIDENT: I enclose herewith a form of Executive Order for your signature, defining the duties of the Isthmian Canal Commission, the duties of the Chairman of the Commission, and the duties of the Secretary of War in relation to Canal matters. This order makes substantially no change in the authority of the Commission, the Chairman and Secretary of War as now exercised, except perhaps in respect to a few duties of a detailed executive character which are transferred from the Commission to the Chairman, leaving the Commission still in general charge of the construction of the Canal, as provided by law. Canal matters have been conducted under previous Executive Orders with informal amendments from time to time which it is difficult for anyone not very familiar with the history of Canal matters either to find or understand. For that reason, it seems wise now to cover the matter by a new order which is not an amendment or a change except as to the unimportant details referred to, but merely a comprehensive revision of existing provisions.

Very sincerely yours,

WM. H. TAFT.

THE PRESIDENT.

Enclosure.

Under authority vested in me by law, it is ordered:

That Title XIV. of Act No. 14 of the Penal Code of the Laws of the Canal Zone be amended, effective January 15, 1908, by adding thereto the following section:

SECTION 293-A.

SUB-SECTION 1. Every vagrant or person found within the Canal Zone without legitimate business or visible means of support; and

SUB-SECTION 2. Every mendicant or habitual beggar found within the Canal Zone; and

SUB-SECTION 3. Every person found within or loitering about any laborers' camp, mess house, quarters, or other Isthmian Canal Commission building, or any railroad car, or station, or other building of the Panama Rail Road Company, or any dwelling or other building owned by any private person, without due and proper authority and permission so to be; or peddling goods or merchandise about any laborers' camp or mess house during hours when laborers are ordinarily employed at work, or in or about places where groups of men are at work; and

SUB-SECTION 4. Every person found in the Canal Zone in an intoxicated condition or under the influence of liquor; and

SUB-SECTION 5. Every person who shall, in the Canal Zone, engage in any kind of disorderly conduct or breach or disturbance of the peace; shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not to exceed \$25, or by imprisonment in jail not to exceed 30 days, or by both such fine and imprisonment.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *January 9, 1908.*

Under authority vested in me by law, it is ordered:

1. Whenever there shall remain in the possession of any common carrier within the Canal Zone any freight, baggage, or other property, transported by or deposited with the common carrier at any point within the Canal Zone, which shall have remained unclaimed by the owner or consignee for a period of six months, and upon which there shall remain unpaid or shall have accumulated freight charges or charges for handling and storage, it shall be lawful for the common carrier to sell the same at public auction, at some designated point within the Canal Zone, after having advertised the sale, with a short description of the property to be sold, for a period of three weeks in some newspaper of general circulation within the Canal Zone.

2. In all cases where any such property is of a perishable character, the carrier shall be authorized to apply to any judge of the circuit court within the Canal Zone, or, if the property shall be of less value than one hundred dollars, to any district judge within the Canal Zone, upon an affidavit describing briefly the property to be sold, its unclaimed state, and its perishable character, for an order for immediate sale, upon such terms as to notice as the nature of the case may admit of, and as to such court or courts as shall seem proper.

3. Before advertising the property for sale the same shall be opened by the carrier, and if it contains any indication of the owner or consignee, a written notice of the existence of the unclaimed property and of the intention to sell the same at public auction shall be mailed by the carrier to the owner or consignee, at any indicated address, four weeks before the date of actual sale.

4. The residue of moneys received from such sale under the foregoing sections, after deducting the accumulated charges for transportation, cost of handling and storage, demurrage, and the cost and expense of the proceedings authorizing the advertising and sale, shall be held for a period of three years, and shall be paid to the owner of such freight, baggage, or other property, on demand. If at the end of the three-year period the said residue shall not have been claimed by the owner, it shall be paid into the Treasury of the Canal Zone Government, to the credit of the public school fund.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *January 9, 1908.*

Under authority vested in me by law, it is ordered:

That Section 22 of Act No. 1 of the Laws of the Canal Zone is hereby amended to read as follows:

SECTION 22.—The Canal Zone, Isthmus of Panama, shall be divided into three Judicial Circuits.

The First Judicial Circuit shall be composed of the Administrative District of Ancon.

The Second Judicial Circuit shall consist of the Administrative Districts of Emperâdor and Gorgona.

The Third Judicial Circuit shall be composed of the Administrative District of Cristobal.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *January 9, 1908.*

Under authority vested in me by law, it is ordered:

1. That, until further ordered, Law No. 6, of March 11, 1904, of the Republic of Panama, as applied and construed by the Executive Decree of April 15, 1904, is hereby extended to and made applicable to the Canal Zone.

2. The fines provided for in the said law shall apply to any company or individual who shall omit to prevent the escape of any transient of the nationality named in said law into the Canal Zone, and shall in all cases be imposed by the court of the Canal Zone district in which the violation of the law occurs, upon information of the Collector of Revenue or of the Prosecuting Attorney of the Canal Zone.

This order shall not apply to any individuals introduced by the Isthmian Canal Commission or by its authority, for the purpose of temporarily laboring upon or in connection with the construction of the Isthmian Canal.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *January 9, 1908.*

Rule VIII of the civil service rules is hereby amended to read as follows:

RULE VIII.—TEMPORARY APPOINTMENT.

1. Temporary appointment without examination and certification by the Commission shall not be made to a competitive position in any case except when the public interest so requires and then only upon the prior authorization of the Commission; and any appointment so authorized shall continue only for such period as may be necessary to make appointment through certification of eligibles and in no case without prior approval of the Commission shall extend beyond thirty days from receipt by the appointing officer of the Commission's certificate; and when a vacancy is to be filled by promotion or transfer for which the Commission's certificate is not required and a temporary appointment is authorized by the Commission under the provisions of this section pending the promotion or transfer, such temporary appointment shall in no case continue beyond the period of thirty days, without prior approval of the Commission.

2. When there are no eligibles upon a register for any grade in which a vacancy exists and the public interest requires that it be filled before eligibles can be provided by the Commission, then the Commission may authorize temporary appointment without examination. Such appointment shall continue only for such period as may be necessary to make appointment through certification and in no case without prior approval of the Commission shall extend beyond thirty days from the receipt by the appointing officer of the Commission's certification of eligibles.

3. When there is at least one eligible and not more than two eligibles on a register for any grade in which a vacancy exists, the Commission shall, upon requisition from the proper appointing officer, certify the name of the one eligible or the names of the two eligibles, which shall be considered by the appointing officer with a view to probational appointment; and if the appointing officer shall elect not to make probational appointment from such certificate of less than three names, then if temporary appointment is required it shall be made from such certificate unless reasons satisfactory to the Commission are given why such appointment should not be made. Such temporary appointment may continue until three eligibles are provided. If selection is not made from the certificate for either probational or temporary appointment under the provisions of this

section, then temporary appointment, if required, may be made under the provisions of section 2 of this rule.

4. When there is work of a temporary character, at the completion of which the services of an additional employee will not be required, a temporary appointment may be made with the prior consent of the Commission for a period not to exceed three months, and may with like consent of the Commission be extended for a further period of three months. Such temporary appointment shall be made through certification from the Commission's eligible registers unless the Commission shall decide in any case that there are no available eligibles. Such temporary appointment shall not extend beyond six months unless there are no eligibles available for the additional period or under unusual circumstances which seem to the Commission to justify an extension beyond six months; and in no case shall such temporary appointment extend beyond six months for any purpose other than to complete the job of work for which the person was originally employed. The Commission may restrict certification for temporary appointment to such eligibles as by reason of residence or other conditions are immediately available.

5. The acceptance of an eligible of a temporary appointment shall not affect his standing on any register for permanent employment, and experience gained as a temporary appointee shall in no way vary the order of certification for permanent appointment. A temporary appointment may be made permanent when the temporary appointee is within reach for permanent appointment at the time of his temporary appointment or in case he is so within reach during his temporary service. In such case the probational appointment may date from the time when he became within reach for probational appointment. A person who has been temporarily employed under the provisions of one section of this rule shall not for that reason be ineligible for employment under any other section. Any appointment under sections 1, 2, or 3 of this rule shall be promptly reported by letter to the Commission, as made, with a statement of the action taken for making permanent appointment. The Commission is authorized to inspect the records of any Department or office to aid it in observing and enforcing the operation of the provisions of this rule and reporting thereon to the President.

THEODORE ROOSEVELT.

THE WHITE HOUSE, *January 27, 1908.*

Under authority vested in me by law, it is ordered:

1. In all criminal prosecutions in the Canal Zone wherein the penalty of death or imprisonment for life may be inflicted, the accused shall enjoy the right of trial by an impartial jury of the district in which the crime shall have been committed, to be chosen as follows:

2. The clerk of the circuit court, the district judge, and the collector of revenue for the administrative district within the circuit in which the crime shall have been committed, shall constitute a jury commission for that circuit. In the second judicial district, the district judge and the collector of revenue to be members of the jury commission shall be designated by the circuit judge, upon this order becoming effective and annually thereafter, or as often as a vacancy may occur in the jury commission.

3. Prior to the first day of the term of any circuit court, upon application of the prosecuting attorney, or by direction of the judge of the circuit in which the crime shall have been committed, the jury commission shall assemble and select the names of sixty male residents of the Canal Zone, between the ages of twenty-one and sixty-five years, in good standing and in full possession of their ordinary faculties, who shall have resided within the Canal Zone for not less than three months previously, and who shall be able to read, write, and understand the English language. Attorneys at law, physicians, ministers of an established religion, members of the military, naval, and police forces, and officers of the Commission of the rank and above the rank of resident engineers, shall be exempt from jury service. The names of the persons so selected shall be written by one of the commissioners upon slips of paper, folded so as to conceal the names, in a uniform manner, and placed in a jury box.

4. Upon the first day of the term, unless an adjournment of the trial beyond the term shall be granted, the judge shall select from the jury box the names of thirty jurors to constitute the panel for the trial of the defendant. The said jurors shall thereupon be summoned by a written notice, served upon them by the marshal of the court, to attend at the trial of the defendant upon a day named. If it appear that any of the jurors whose names have been selected are absent from the Canal Zone, or incapacitated from other cause from attending as jurors, the judge, upon the application of the marshal, shall draw the names of other jurors and direct their summons until a panel of thirty jurors shall be assembled.

5. Upon calling the case for trial, twelve jurors shall be called to try the defendant in the order in which their names shall have been first drawn for summons by the circuit judge. Either side shall have the right to challenge any juror for cause, and, in addition thereto, the defendant and prosecuting attorney shall each have the right to challenge arbitrarily six of the said jurors. If the original panel of thirty shall be exhausted without securing twelve impartial jurors to try the defendant, the names of other jurors shall be drawn by the circuit judge from the jury box and such jurors summoned until the jury shall have been completed.

6. The jury so selected shall, under the instructions of the court, and in conformity with the procedure prevailing in the Federal courts of the United States, determine whether, under the facts as proved, the defendant is guilty or not guilty. They shall conduct their deliberations in secret, and shall return a verdict of guilty or not guilty, which must be unanimous. Sentence shall be pronounced by the court.

7. The circuit judge shall have the discretion to require the jury to be kept together and apart from the public from the time they are sworn until their verdict shall be returned. If they be kept together, suitable provision shall be made by the marshal of the court for their subsistence and lodging. The jurors shall be allowed a jury fee of two dollars for each day actually summoned to court and engaged in the trial of a criminal action. The cost of subsistence and lodging of the jurors and the fees for the jurors' attendance shall be paid from the Treasury of the Canal Zone, upon a voucher duly approved by the circuit judge.

8. It shall in all cases be optional with defendants to be tried before a jury as provided for in this order, or under the procedure prescribed in Section 171 of the Laws of the Canal Zone. The accused shall, however, in person or through his attorney, file a written statement with the clerk of the circuit court before which his trial is to take place, on the first day of the term for which the trial is set, stating the procedure by which he desires to be tried. The procedure having been once selected by the accused can not thereafter be changed, but must be followed with respect to any future trial of the accused for the same offense.

THE WHITE HOUSE, *October 3, 1908.*

WAR DEPARTMENT,
Washington, September 23, 1908.

The PRESIDENT,

White House, Washington, D. C.

SIR: When the purchase of supplies for the Panama Canal first started, the Inspection Department of the Panama Railroad Company was used by the Canal Commission for inspecting purchases in the United States. This practice was continued until the summer of 1907, when, the Purchasing Department being placed under the Chief of Engineers of the War Department, the General Purchasing Officer of the Isthmian Canal Commission also availed of the services of the Engineer Officers of the Army throughout the country for inspection.

This, however, did not take away the duties of the Inspecting Engineer, and office force located in New York, which continued to have general supervision of the Commission's inspection work.

In March last a portion of the office of the Inspection Department of the Panama Railroad Company in New York was transferred to Washington, leaving still a portion of that force in New York, both, however, continuing on the railroad company's payroll, although the Commission pays one-half of the expenses of both offices.

The entire work of the Commission is now practically done in the Washington office, and it is now desired to separate the inspection department of the Commission from that of the Railroad Company, in order to obtain an accurate division of expense, and to promote greater efficiency of service. This action is recommended by the Chairman of the Isthmian Canal Commission, provided the clerical force can be brought under Civil Service rules. I concur in this recommendation, and respectfully request that an Executive Order be issued placing the clerical force of the Inspecting Engineer's office of the Isthmian Canal Commission in Washington under Civil Service rules, and bringing into the classified service the following employees of the Washington branch of the Inspecting Engineer's office:

Name.	Position.	Salary.
R. E. Young.....	Clerk.....	\$1,200
Barker Place.....	do.....	1,000
W. H. Shields.....	do.....	900
F. M. Baker.....	do.....	900
Geo. F. Dolan.....	do.....	840
Louis Fahnestock, Jr.....	do.....	840
Brice L. Casteel.....	do.....	840
Fred G. Crusoe.....	Messenger.....	480

It is desired that when this order is issued it exempt from examination the Inspecting Engineer who has charge of the above-mentioned force and the Inspectors, as in many instances these Inspectors are engaged on very short notice on special work and for a short time only, and on the completion of the work their services are terminated.

Very respectfully,

LUKE E. WRIGHT,
Secretary of War.

AMENDMENT TO SCHEDULE A OF THE CIVIL SERVICE RULES.

“(b) The temporary appointment of a mere unskilled laborer for a period to exceed thirty days, in cases of great and evident necessity.”

By virtue of the Authority vested in me, I hereby establish the following Order for the Canal Zone:

1. If any seaman who shall have signed a contract to perform a voyage shall absent himself from an American vessel at any port or place in the Canal Zone, without leave of the master, or officer commanding in the absence of the master, such master or the Collector of Revenues or his deputy acting as the Shipping Commissioner may make complaint against such absent seaman to the judge of any Circuit Court of the Canal Zone, who thereupon shall issue his warrant against the seaman complained of in order that he may be brought before him to answer the complaint; and, after a hearing before said judge, if it shall appear that the seaman had signed a contract to perform a voyage on the vessel and that the voyage agreed for is not finished or altered, or that the contract was not otherwise dissolved, and that such seaman has deserted the vessel, or absented himself therefrom without leave, the judge shall commit him to jail to remain there until the vessel shall be ready to proceed on her voyage, or until the master shall require his discharge, and then to be delivered to the master, the latter paying all the costs of such commitment which may be deducted by him from the wages due to such seaman.

2. If it shall appear on the hearing hereinbefore provided for that the voyage of the vessel is continued contrary to agreement, or that the vessel is badly provisioned, or unseaworthy, or that the officers of the ship have been guilty of cruel treatment toward the seaman, he shall be discharged and the judge shall require the master to pay to such seaman one month's wages over and above the wages due at the time of discharge, and to provide him with adequate employment on board some other vessel, or provide him with a passage on board some other vessel bound to the port from which he was originally shipped, or to the most convenient port of entry in the United States, or to a port agreed to by the seaman, and the seaman shall have a lien on the vessel to compel compliance with the order of the judge, who shall have authority to issue all writs necessary to enforce his jurisdiction; and the judge shall cause to be entered upon the crew list and shipping articles and official log the cause of discharge and the particulars in which the cruel or unusual treatment consisted, and shall cause his name to be subscribed thereto officially, and shall cause the entry made in the official log to be read to the master. The latter's reply thereto, if any, shall likewise be caused to be entered and subscribed in the same manner.

3. If any consul or vice-consul of any foreign government, who is commissioned to the government of the Republic of Panama and is recognized by the United States in the Canal Zone, such foreign government having a treaty with the United States, or with the Republic of Panama, stipulating for the restoration of seamen deserting, shall make application in writing stating that the person therein named has deserted from a vessel of any such government while in any port of the Canal Zone, and shall furnish proof by the exhibition of the register of the vessel, ship's roll, or other official document, that the person named belonged, at the time of the desertion, to the crew of such vessel, it shall be the duty of any judge of any Circuit Court of the Canal Zone, to issue warrants to cause such person to be arrested for examination. GOVERNMENT OF THE INSANE ASYLUM FOR THE CANAL ZONE.

By virtue of the authority vested in me I hereby establish the following Executive Order for the Canal Zone:

SECTION I. The Asylum for the Insane at Ancon, as heretofore, shall be under the jurisdiction of the Department of Sanitation. The object of said Asylum shall be the curative treatment of the insane.

SEC. II. The Superintendent of the Ancon Hospital shall be the administrative chief of the Asylum for the Insane, subject to existing laws and orders, and to such rules and provisions as may be issued by the Department of Sanitation in accordance with existing laws and orders. He shall be in charge of the general inspection of buildings, grounds and equipment, and shall have the supervision over the professional and administrative personnel of the Asylum and over the inmates, and shall satisfy himself that all patients receive the care and medical treatment which is best adapted to their comfort and recovery.

He shall see that a proper register of the patients is kept, showing their names, previous residence, occupation, origin and antecedents, and condition at the time of admission, and their mental and physical condition, as well as their medical treatment during the time of their stay in the Asylum shall be recorded. The death or discharge of patients shall be entered in the register.

SEC. III. No person declared to be insane shall be kept in a jail, prison, hospital for the sick or other similar institution, but shall be sent, with the proper precautions, to the Asylum for the Insane herein provided for.

SEC. IV. The Superintendent of Ancon Hospital, through the physician in charge of the Insane Asylum, may discharge any patient upon filing in his office a written statement that in his judgment such patient has recovered, or that the discharge will not be detrimental or dangerous to the public welfare or injurious to the patient, provided, that before discharging any patient who has not recovered the Superintendent shall satisfy himself by adequate investigation that the relatives or friends of the patient are able and willing to receive and care for such patient.

No patient shall be discharged without suitable clothing.

The discharges referred to in this section do not apply to commitments on judicial orders in criminal cases, in which cases the discharges can be granted only by the Court which directed the commitment of the prisoner.

SEC. V. No person shall be admitted as a patient in the Asylum for the Insane except upon the order of a Circuit Judge of the Canal Zone, provided, that if a patient is in a state of violent insanity he may be admitted at once into the quarters hereinafter provided for the observation of persons alleged to be insane, without an order of court, upon the written request of the District Physician to the Superintendent of Ancon Hospital; or the patient may be admitted to the observation quarters by said Superintendent without such request, in the absence of the District Physician.

It shall be the duty of the Superintendent of Ancon Hospital to report the case in writing to the Circuit Judge, within twenty-four hours after the patient has been admitted to the observation quarters, and as soon as the Judge shall have received the report he shall proceed to examine and determine the case in like manner as if the petition had been presented to him prior to the patient's admission into observation quarters.

SEC. VI. To obtain the judicial order provided for in the preceding section it shall be necessary for the nearest relative of the person alleged to be insane to present a petition, duly subscribed and sworn to by the petitioner, to the Judge of any Circuit Court of the Canal Zone, which petition shall state the sex, age and nationality, if known, of the patient, and the facts showing his mental infirmity, and, if possible, the history of the case and the form of insanity with which he is suffering and the attending circumstances making it necessary that he be confined in the Asylum. The petition shall be accompanied by a certificate signed by one or more reputable physicians to the effect that such person is insane.

When the nearest relatives of the person alleged to be insane are absent or refuse to act the petition may be made by the District Judge of the District in which the patient resides or is to be found, at the time the application is made, and in that event it shall state that the nearest relatives of the person alleged to be insane are absent or refuse to act.

SEC. VII. The petition provided for in the preceding section shall take precedence over all other matters pending before the court and shall be heard by the judge thereof without delay, and if the facts stated therein are sufficient to satisfy him of the insanity of the person sought to be confined he shall issue orders at once directing that the person alleged to be insane be taken into custody and placed in quarters hereinafter provided, for the proper observation of the case.

The order of the Judge directing that the person alleged to be insane be placed under observation shall be sufficient authority for the Superintendent of the Asylum to admit the patient into the institution for the purposes of observation, there to remain until the observation is concluded; and the Judge shall direct in said order

that if the observation shall show that the patient is not insane he shall be set at liberty at once, and the medical officer in charge of such observation shall forthwith report his action thereon to the judge who issued the order.

The observation of the alleged insane person shall be made in suitable quarters within the asylum grounds, by the chief medical officer thereof, or under his direction, and shall be for a period of not more than thirty days, and the judge who issued the order for the detention of the patient may require the medical officer in charge of the case to make reports thereon to him from time to time.

SEC. VIII. The observation provided for in this law may be carried on at the residence of the alleged insane person, when, in the opinion of the Judge, that may be done with safety to the patient and the public: and in such cases the Judge may impose such limitations and conditions as in his judgment the interest of the patient and the safety of the public demand.

SEC. IX. It shall be the duty of the physician in charge of the observation to examine the patient and observe the symptoms of his case: within thirty days after the patient is placed under observation the medical officer in charge of the case shall make his report thereon in writing, and shall state whether the patient is sane or insane. The report shall contain a statement of the facts upon which it is based, and shall be sent to the court having jurisdiction of the case, within twenty-four hours after the same has been subscribed by him.

SEC. X. It shall be the duty of the Judge having jurisdiction of the case, within twenty-four hours after the receipt of the report provided for in the preceding section to render judgment therein, either committing the patient to the Asylum for the Insane or directing that he be turned over to his relatives, able and willing to take care of him, or to order his discharge, in accordance with the findings of the medical officer in charge of the case.

SEC. XI. The relatives of the person alleged to be insane, or the Public Prosecutor, may appear and contest the report of the medical officer, and in such cases the Judge shall hear the evidence presented by the parties and render judgment thereon, either committing the patient to the asylum or directing his discharge as the law and the facts in the case may justify.

SEC. XII. From the judgment of the court rendered in accordance with the preceding section either of the parties may appeal to the Supreme Court of the Canal Zone, which court shall hear and dispose of the case with all reasonable despatch, giving it precedence over all other matters pending therein.

When an appeal is taken the trial court shall issue such orders as it may deem necessary and proper for the custody and safe-keeping of the patient during the hearing of the appeal.

Any person interested in an inmate of the Asylum, who believes he is improperly detained therein, may make application to the Circuit Judge of the First Judicial Circuit for the discharge of such patient. Upon the receipt of such application the Judge shall issue an order to the Superintendent of Ancon Hospital to make a report on the patient's condition, and upon the receipt of such report the Judge shall consider the same, and, in his discretion, may grant or deny the application. Should the Judge be in doubt as to the proper action to take he may cause the patient to be examined by two competent physicians who shall report to the Judge in writing as to whether the patient should be released or detained in the Asylum. If the physicians recommend the detention of the patient the court may deny the application; should they recommend his release the Judge may grant the petition and discharge the patient at once.

The relatives or friends of the patient or the Public Prosecutor, if dissatisfied with the ruling of the Judge may appeal therefrom to the Supreme Court of the Canal Zone, which Court shall dispose of the appeal as in ordinary cases provided for under this Order; and pending the appeal the trial court may make such orders relating to the custody of the patient as may best subserve the interests of the patient and the public.

If the insane person shall be serving a sentence for the violation of the criminal laws, the Circuit Court of the Circuit wherein the conviction shall have been had shall have jurisdiction of the petition for the discharge of the patient from the Asylum.

SEC. XIII. The order of the Judge directing that the patient be admitted to the Asylum for the Insane for care and treatment shall also provide that the marshal, or police officer acting as marshal of the court, shall convey the patient promptly under proper escort to the Asylum.

SEC. XIV. If any person confined in a prison or penitentiary under the sentence of a court becomes insane he shall be committed to the Asylum for the Insane by the Judge of the Circuit Court of the Circuit wherein the patient received his sentence of conviction. In all such cases the provisions of this order, relating to the period of observation of the patient and the trial of the issue as to his insanity shall be observed, provided however, that the period of observation shall be carried out in the infirmary of the prison or penitentiary, unless the Judge, on the advice of the Department of Sanitation is of the opinion that it should take place elsewhere. Whenever a person is committed to the Insane Asylum under the provisions of this section, the order of commitment issued by the court shall include a statement of the offense of which the person was convicted, the term of his imprisonment and the date upon which said term is to expire. Should such person be discharged from the insane asylum before the

date of the expiration of his term of imprisonment he shall be returned to the penal institution from which he was taken, in order that he may finish his term; and shall be set at liberty if his discharge from the Asylum takes place subsequent to the date of the expiration of his term of imprisonment.

SEC. XV. All expenses connected with cases of insanity, including the cost of observation, transportation, care, treatment and maintenance of the patients, shall be borne by their respective estates, to be paid in due order of administration of their estates in accordance with the probate laws of the Canal Zone, and if the patients are insolvent then the expense shall be borne by the relatives responsible for the care and maintenance of such patients under the law to be recovered by the Isthmian Canal Commission against such relatives in any court of competent jurisdiction; and if the relatives of the patients are also insolvent then such expenditure shall be paid out of the public moneys appropriated for such purposes.

SEC. XVI. Nothing contained in this Order shall be construed to repeal or modify the provisions of the Code of Criminal Procedure of the Canal Zone relating to the inquiry into the insanity of the defendants before trial or after conviction.

SEC. XVII. Insane patients from the Republic of Panama may be admitted into the Asylum for the Insane, herein provided for, in accordance with the existing agreements between the Canal Zone authorities and the Panamanian authorities, or under such changes and modifications of said agreements as may be made from time to time.

SEC. XVIII. The Canal Commission is hereby authorized to establish rules and regulations from time to time as may be deemed necessary for the government of the Asylum for the Insane herein provided for, subject to the approval of the Secretary of War.

SEC. XIX. This order shall take effect thirty days from this date.
